Purpose of role:

1. Improve student achievement in science, with particular focus on the progress of disadvantaged and SEND students
2. Provide individual or small group instruction to students who are performing below expected
3. Monitor, report, and communicate student progress and performance to teachers, the faculty leader, the Academy Leadership Team and students' parents and carers.
4. Provide support to teachers to improve/ engage target students in class

Key accountabilities (and specific duties / responsibilities):

1.
 - Provide high quality instruction to individual students and small groups.
 - Be responsible for undertaking comprehensive assessments of students to; (i) determine those in need of particular support, and (ii) to target personalised interventions.
 - Collaborate with teachers, SEN team and families to help identify best practices for individual and small groups of students.
2.
 - Use identified research-based interventions focusing specifically on individual student needs.
 - Provide diagnostic assessments for students as needed.

- Implement assessment tools and a data management system to assess the impact on the students.
- 3.
- Track and record student progress.
 - Report students' progress to students, teachers, the faculty leader, SLT and parents.
 - Provide data-led options to inform decision making about next steps in science intervention.
 - Communicate with teachers, school teams, and families regarding student progress.
- 4.
- Share evidence based approaches to improving students' progress in science.
 - Provide 1-1 support to individual teachers to improve how they engage target students in class

The job description best characterises the role at the time of its formulation. It is subject to review to align with the needs and requirements of the Academy, in agreement with the post-holder, and by final agreement with the Headteacher.
