Apprentice Science Technician

Job Description

Purpose of the Post

Exmouth Community College is seeking an outstanding, inspirational Apprentice to take on the role of Science Technician in the Science Faculty at ECC.
This offers a unique opportunity for an ambitious and enthusiastic individual to develop valuable practical and technical skills while working in a dynamic and supportive educational environment. The successful candidate will work alongside experienced staff to support the delivery of an engaging science curriculum, assisting with the preparation of resources, maintenance of equipment, and organisation of laboratories across the faculty. You will be completing the Laboratory Technician Level 3 apprenticeship programme. This apprenticeship provides an excellent foundation for a career in science, education, or technical support, with opportunities for both personal and professional development.

Key Responsibilities

- Under the guidance of Lead and Senior Technicians:

- Preparation of practical requirements for lessons on both sites as requested by
- Science teachers including setting up of demonstrations, checking apparatus and
- equipment is functioning correctly, maintaining adequate supplies of apparatus and
- solutions and clearing away at the end of the lesson.
- General laboratory maintenance, restocking and organisation.
- Repair and maintenance of apparatus and equipment.
- Care and maintenance of plants and animals as necessary.
- Maintain resources and photocopying.
- Wash up and clean sinks and laboratory surfaces.
- Liaise and cooperate with all members of the Science Department and immediate colleagues in developing new courses and assisting with other projects.
- Any other duties commensurate with the grading of the post and as required to assist the Lead Science Technician.
