Do you want to be part of a school community on a journey from good to outstanding?

Do you want to make a difference to outcomes for all students?

We are looking to appoint a technician to work within the Art and Photography Department, with responsibility for the organisation and preparation of practical materials to support teaching.

This post would suit a candidate who has experience in or a strong enthusiasm for the visual arts including Digital Photography.

Good organisational skills and an ability to take the initiative in order to keep the Art department running smoothly would be essential. Ideally the candidate should be able to demonstrate an active interest in Art and Photography as they would be expected to be involved in helping with exhibitions and display of work as well as helping to prepare educational resources and assist in practical demonstrations in both subjects. A working understanding of Adobe Photoshop would also be preferable.

Knowledge of Health and Safety practices within an educational environment would be useful, but not essential as training would be provided.

Hours can be flexible depending on the candidate's other commitments and can be negotiated on appointment. The experience gained within the Art department could be invaluable for someone interested in future applications within Art education.

The successful candidate will:

- Be committed to comprehensive education
- Have students at the heart of what drives their decision making
