Assistant Headteacher – Innovation and Technology
Leadership Scale: 14-18
Start Date: September 2021

Pate's is an amazing school that offers a unique education for students across the region. We are the top performing co-educational school in the UK and have worked hard to foster a culture of innovation, care and ambition amongst the staff and students. We are ambitious whilst careful to ensure that the incredible ethos and culture of the school – 'The Pate's Way' – is enriched and developed. We have recently become a National Teaching School Hub, testament to our ambition to drive forward the professional development of teachers, and are now looking to find two new Assistant Headteachers to help us progress towards our 'Pate's 2025' vision.

The successful candidate for this role will lead digital learning and the use of technology at Pate's. We have learned so much over the last year and now want a Senior Leader to create a Digital Strategy that is truly innovative. You will have the time, support and resources to design and lead a change that will ensure that learning at Pate's, for students and staff, is enriched by an inventive approach to the use of technology. I hope that you are excited at this opportunity to design and lead a new digital vision for our school?

We strongly encourage applicants to visit the school to meet our team and to get a 'feel' for the school. We know that our staff are the most important reason for the school's success and we are keen to answer the questions you may have before you apply. Please call Francesca Coppola, PA to Head Master on 01242 538275 to arrange a visit or a discussion.

Completed applications and covering letter should be emailed to: jobs@patesgs.org

Please download the Application Pack and visit the school website www.patesgs.org for further details our school and the application form

Closing Date for Applications: **Monday 15th March @ 9.00am**
Interview Dates: **Week Commencing 22nd March**
