We are seeking to appoint teachers who share our passion for teaching and learning. We pride ourselves on our inclusive approach that ensures all children learn in a way that they enjoy and allows them to succeed. You will be joining a supportive and enthusiastic team who have led the school on a journey of rapid improvement. The school received a good Ofsted judgement in 2017 with areas of outstanding. The successful candidates will be outstanding classroom teachers, who strive to find ways to deliver the curriculum that both they and the children enjoy. We place great importance on the wellbeing of staff and work hard to ensure that our school is a happy and caring place to be.

Biggin Hill Primary is a two form entry school situated on the edge of the Borough of Bromley in a beautiful rural setting. The school benefits from a range of indoor and outdoor facilities that support outstanding teaching. The school is part of the Charles Darwin Academy Trust, which provides strong links across the two schools and supports both schools on their journey to outstanding. This is your opportunity to join a school making rapid progress, which is continuously developing its teaching strategies in line with the changing face of education. We expect our new post holders to join our team and make a significant contribution to the school's ongoing success. We welcome Early Career Teachers to apply for these roles and the successful candidate will benefit from a full programme of support.

We are seeking candidates with:

- Outstanding classroom practice or the capacity to become outstanding teachers
- The ability to motivate and inspire our children
- A natural tendency to work collaboratively with others
- The ability to support children in meeting their full potential

In return, we will offer you the opportunity to:

- Join a committed and supportive team of staff
- Work with children who are inquisitive, self-assured and embrace challenge
- Participate in a full program of CPD to support the school's commitment to professional development in all levels
