Great Wilbraham C of E Primary School, Church Street, Great Wilbraham, Cambridge, CB21 5JQ, 01223 880408

## School Summary

Great Wilbraham Church of England Primary Academy is a friendly village school set in an attractive rural village about 4 miles east of Cambridge. Our school is committed to providing an excellent standard of education with a strong caring Christian ethos.

We are constantly striving to provide a school environment which values the achievements of all our children and fosters the development of secure relationships promoting self-esteem, tolerance and concern for others.

The school was re-housed in a new building in 1995 and has since been extended several times, giving us excellent facilities. It is surrounded by extensive grounds providing a rich resource to enhance the curriculum.

We firmly believe in a strong partnership between home and school and this is promoted in as many ways as possible.

The school has one immediate advantage – its size. There are on average 85 - 105 children on roll (currently 89) from the ages of three through to eleven. They then transfer to their secondary school, usually Bottisham Village College with which we have close links. This fairly small number on roll enables us to function as a large family, thus giving children the vital feeling of security, particularly in their formative years.

Children are normally grouped according to their age, and spend approximately two years in each class. The current class structure is as follows:

Badger	Year 5 and Year 6
Hedgehog	Year 3 and Year 4
Squirrel	Year 1 and Year 2
Fieldmice	Reception and Nursery (age 3+)

In September 2023 we joined the newly formed ACT Multi Academy Trust. The ACT Multi Academy Trust is a connected learning community. We share a culture of collaboration. Our team of highly skilled staff work passionately to provide the best learning opportunities through a meaningful curriculum, bespoke to each school, where children and adults acquire the knowledge, skills and positive attitudes to prepare and strengthen them for their role in society: today, tomorrow and in the future. Rather than just looking at pupil outcomes and results whilst at school, we envisage the future lives of our children, as engineers, designers, artists and teachers. We strive for them to flourish in the world.

If there is any more information we can give you, or if you would like to arrange a visit to the school, please telephone the school. We welcome visitors.

TOGETHER we are CARING, CONFIDENT and CREATIVE learners
