

JOB DESCRIPTION

Job Title: Curriculum Leader for Mathematics Responsible to: Assistant Principal Salary: MPS + TLR 1:3

Purpose of the job:

- Be accountable for the learning and achievement of all students following mathematics programmes within the academy.
- To provide high quality leadership and management for mathematics education within the academy.
- To develop effective partnerships with all members of the Children's Services team to secure high levels of student progress.

Key Responsibilities/Activities

Teaching and learning:

To provide high quality subject and personal development curriculum lessons which:

- Ensure that students acquire new knowledge and skills, develop ideas and increase their understanding.
- Enable students to develop their learning habits of concentration, working productively both independently and collaboratively, and producing work which is well presented.
- Ensure students know the progress they are making and how they need to improve because their work is assessed thoroughly and constructively and used as the negotiated basis for their individual learning plans.

Through:

- Well planned lessons and modules in which assessment for learning is integrated into the planning process.
- Lessons which are well matched to students' needs with an appropriate level of challenge.
- Well organised and skilful use of resources, including time, information learning technology and learning assistants.
- Homework which reinforces and extends the learning done in class.
- Consistent and effective behaviour management.

Leadership and management:

• To take responsibility for ensuring they are up to date in terms of their knowledge of the subject(s) they teach, the related teaching methodologies and the external examination requirements for their subject(s).

- To attend assemblies, register students and assist with supervision before, during and after the working day.
- To attend meetings arranged for staff, with parents and, when appropriate, with outside agencies/providers.
- To supervise and, so far as is practicable, teach students whose teacher is not available.
- To assess, record and report on the personal development and academic attainment and achievement of students.
- To ensure that work is always set for classes when absence is foreseeable.

Performance management and professional development:

- Participating in the academy's arrangements for performance management, professional development and the academy's arrangements for quality assurance and internal verification.
- Those new to teaching will also be required to participate in the arrangements for induction, supervision and training for teachers new to the profession.

General Responsibilities/Activities:

As a subject and personal development curriculum teacher to identify and exploit opportunities within their teaching to promote:

- Equality of opportunity and the tackling of discrimination.
- Achievement and the enjoyment of learning, safety and safeguarding, behaviour, adopting healthy lifestyles, contribution to the wider community and the development of skills for their future economic wellbeing.
- Students' spiritual, moral, social and cultural development.
- Community cohesion and ensure that the requirements of Academy Policy in all matters are observed in the department's own practice and procedures.

Working Time:

A teacher employed full-time must:

- Be available to work for 195 days in any school year as specified by the Principal.
- Perform duties specified by the Principal for 1265 hours in any school year.
- In addition to 1265 hours, work such reasonable hours as may be necessary to enable her/him to discharge effectively their professional duties.

To undertake other duties appropriate to the grade for the post as the Principal may from time to time reasonably determine.

This position is subject to an enhanced Disclosure and Barring Service Check and suitable references for the successful applicant.

TLR DESCRIPTION

Curriculum Leader of Mathematics TLR 1:3

Purpose of the role:

- To oversee the leadership and management of mathematics in line with the academy expectations for curriculum leaders and their teams.
- To meet with the Assistant Principal at least once per fortnight to update them on student progress, changes to the curriculum, staffing issues, quality assurance etc.
- With the assistance of other department post-holders, produce the Department Development Plan and SEF.
- Create a highly effective team by motivating mathematics staff, particularly through personal example, clearly led department meetings and thoughtful delegation and deployment.
- Adherence to the academy's rigorous procedures for recording, monitoring, analysing and acting upon a range of data including student attendance, punctuality, referrals and academic records from all subject areas to:
 - Track student overall attainment and achievement on a regular basis with a particular focus on Year 11;
 - Evaluate the quality and appropriateness of students' overall negotiated individual learning plans;
 - Identify when intervention is necessary and organising intervention programmes alongside post holders in the department.
- Linking this data to performance management.
- Well-informed advice based on their knowledge of national developments in mathematics, curriculum innovation, the learning environment, resources for learning and Health and Safety matters, including risk assessments.
- To promote good discipline and orderly conduct in the mathematics area through partnerships with Progress Co-ordinators and those members of the Children's Services Team who provide intervention support for students.
- The leadership qualities to ensure that high quality mathematics schemes of work are based on personalised learning principles and are in place for the start of each academic year (with the support of post holders) having been revised to reflect new developments/requirements of examining boards/National Curriculum.
- Sound financial management of the departmental budgets that have been set.
- Collaboration with Assistant Principals and Vice Principals regarding:
 - The arrangement for the performance management and professional development of all members of the mathematics team; and
 - The academy's arrangements for quality assurance and internal verification.
 - To oversee the arrangements for all mathematics related extracurricular activities, including off site visits.
