"Sir John Thursby Community College continues to be a good school. Staff enjoy working at this school.

The pupils that we spoke to told us that they feel safe at school. They have good relationships with staff and they are well cared for. Senior leaders are determined to make the school better for pupils and staff."

Ofsted January 2020

We wish to appoint a highly organised, flexible and enthusiastic person with good administrative skills to assist a forward-thinking department.

It is an exciting opportunity for the right candidate to contribute to our work and benefit from an excellent environment, where all staff are encouraged to progress their careers with us. Our state of the art building ensures that our students and staff have the best learning environment in which to achieve. SJT is a very positive community, with our recent staff survey showing that over 93% of our staff enjoy coming to work and are proud to be part of our school. At SJT we view the professional development of all staff as a priority and you will be joining a successful and committed team.

The DT faculty offers students the experience of Food, Textiles, Product Design, CAD CAM and Graphics. It would be preferable if the successful candidate has experience in more than one of these areas although training will be offered and encouraged. The successful candidate will also:

- have the ability to order and budget for material resources;
- have a good level of ICT knowledge including Windows software; ideally have knowledge of specialist programmes inc. 2D design and lasercutting
- follow Policies and Procedures to ensure safety and compliance within the faculty; have experience with machine maintenance
- Be able to prep and prepare materials for the workshop
- have a flexible approach to enable the faculty to ensure that all students achieve.

The DT faculty consists of diverse and multi-skilled staff, who work well together and a good sense of humour would be an advantage.

The successful candidate will fully embrace our ethos of 'Belong, Believe Achieve' whilst bringing fresh ideas that will build on current strengths and achievements.
