About The Sheffield UTC Academy Trust

At The Sheffield UTC Academy Trust we are a growing University Technical College (UTC) only trust based in the North of England.

Our UTCs offer a unique and specialised approach to learning, combining academic studies with practical, hands-on experience in technical subjects in order to prepare students for the world of work. Students can join either at age 13 in Year 9 or age 16 in Year 12. Focussing on STEM subjects, our schools specialise in up to three of the following: Computing, Creative & Digital Media, Engineering & Advanced Manufacturing, Health Sciences, Sport Science.

These are all regional, national and international growth areas that already, and will continue to, offer strong career opportunities in the future.

What sets UTCs like ours apart from traditional schools is our close collaboration with industry partners, ensuring that the curriculum is aligned with the needs of the workforce. Students engage in project-based learning, gaining practical skills and experiences that directly relate to their chosen career. All our institutions maintain strong ties with local businesses and universities, providing students with opportunities and exposure to real-world challenges.

We strive to deliver excellence in our specialist subjects and have positioned ourselves as the main talent pipeline creator for the next generation of scientists, engineers, designers, healthcare professionals and innovators. Our curriculum has been designed with intent, it's both broad and balanced whilst being focused on the needs of the relevant specialist sectors. In addition, the curriculum holds the students at its heart, morally shaped to provide focus and purpose whilst raising aspiration.

The Trust currently comprises of three UTCs: UTC Sheffield City Centre, UTC Sheffield Olympic Legacy Park and UTC Derby Pride Park.

It's a privilege to lead the Sheffield UTC Academy Trust. Our UTCs attract a diverse range of students of all abilities who love to learn by doing. Our dedicated team, industry facilities and employer projects bring their academic studies to life.
