DIRECTOR OF COMPUTING AND TECHNOLOGY

FULL TIME | MPS or UPS + TLR 1 (to reflect the role and experience of the successful candidate)

A truly exciting opportunity to lead our Computing and Technology staff and curriculum across the School from September 2022. This is a new post to bring together our provision in Computer Science, Design & Technology, Engineering and Food Technology.

We are seeking an innovative, organised and enthusiastic candidate who will be a specialist in Computer Science or Design & Technology. You will be responsible for the culture and success of all forms of computing and technology as academic subjects, but also as part of the development of our students.

The successful candidate will shape, direct and deliver an exciting future for all forms of technology, with opportunities to develop and pioneer across both areas.

All areas are recently refurbished and this is an exciting time to capitalise on the skills needed for the future as part of the School's commitment to developing and nurturing character. The successful candidate will be a strong presence within the school community, highly visible and be able to form effective relationships.

Aylesbury Grammar School is an academy grammar school for boys. Our broad curriculum and strong pastoral care create a culture of respect and aspiration.

To obtain further details please see the Recruitment Pack on the School's website, and if you have further questions please email the Headmaster's PA Donna Miles: **dmiles@ags.bucks.sch.uk**

Closing date for applications:
Noon on Monday 10 January 2022.
Interviews to be held in January 2022.
