

Thank you for your interest in Calstock and Stoke Climsland Schools. We are a federation of two Local Authority maintained schools in search of a compassionate executive headteacher to lead our schools and carry our values of inclusion and collaboration as we continue to evolve with our communities.

Our governors, teachers, pupils and parents are proud of our schools. This is consistent with our high degree of parental and community engagement. We appreciate the support and involvement. Our teachers respect their pupils' thoughts and feelings, as they are similarly supported by their leadership and governance. Throughout our federation we choose to celebrate achievement and offer guidance in preference to strict direction.

Our two schools are distinct in character, not just because of their difference in size, but because of the different children and families that make define them. This continues even though we share common leadership and administrative roles between our two villages and our teachers meet and collaborate between schools. Because we listen to and respond to our communities, our schools each have their own identity. Our long term plan for growth and development as presented on our schools' websites accurately represents the values of our schools and communities and our desired direction. It encapsulates our culture and describes our collective vision.

This approach has allowed us to educate and empower our pupils, with all of their diverse needs, and to graduate them to their next step in education and life. We are looking for a leader who shares our values who will guide our schools in delivering the highest quality of education.

We welcome interested applicants to schedule a visit to our schools.

Please contact the school office at either school to arrange a visit.

Completed application forms and equal opportunities monitoring forms must be returned to headships@cornwall.gov.uk by 23:59 on 31 March.
