## Hopesentamu LEARNING TRUST

Hope Sentamu Learning Trust is a growing multiacademy trust for both primary and secondary schools along with Alternative Provisions.

Since the merger between Hope Learning Trust and the Sentamu Academy Trust, we continue to develop and grow so that everyone in our communities is given the opportunity to thrive. Schools across both the Trusts had previously been working together, so we already have a family of schools who share best practice. Each one of our schools has its own distinctive character, identity and strengths which it brings to the Trust so that we all benefit from each other. We have a very bright future ahead!

## Our Vision

Our vision is really very simple. We aspire to provide a place where children and young people can thrive. The aspirations for our existing academies and those joining us are to establish environments where young people thrive. We want our schools to be places where children and young people thrive as active learners; compassionate, kind and creative individuals; caring and engaged citizens; and spiritual beings. We aim to grow together, to serve one another and nurture our children and young people.

In a world of turmoil we offer schools the opportunity to concentrate on teaching and learning, providing you with peace of mind as we look after everything else. Hope Sentamu Learning Trust presents opportunities and expectations that promote success.

As a Trust, we want every young person to experience great teaching, so we place the highest value on developing colleagues at all levels.

By working together we can ensure:

- all children and young people have a school in which to thrive as learners, as individuals, as citizens and as spiritual beings
- all staff and all governors are nurtured
- all children develop spiritually as well as academically
- no school is left behind regardless of its context and challenges, whether these are around size, rurality or levels of deprivation
- that all governance is highly effective in supporting and challenging the local schools
- a better use of resources by collectively sharing central services
- a provision of effective teachers and support staff, sometimes working across schools in new and imaginative ways
- access to training, support and external validation from a team of highly experienced educational consultants who will also support, question and challenge
- a link to a Teaching School to train the next generation of teachers and to support and develop others
- access to national resources such as capital grants through the EFA and other funding only being made available to MATs

Good luck with your application and I look forward to hearing from you
