Academy

## **DESIGN AND TECHNOLOGY AT HALL PARK ACADEMY**

The Faculty of Design and Technology offers a range of highly popular subjects at Hall Park Academy delivered by a team of 4 full time teachers, assisted by 1 departmental technician. The department has 2 well-equipped classrooms, one of which is ICT equipped and 3 workshops plus a dedicated Food Technology room.

The faculty has successfully adapted to curriculum changes in all Key Stages and strives to continue to develop in response to the ever changing world of technology and is actively involved in with local businesses.

Design and Technology, Engineering, Textiles and Food Technology are taught to all students in Key Stage 3. They follow a curriculum that is rich in real world examples to develop the theoretical and practical skills required to move into higher levels of education and on to work successfully in industry. Focus is placed on students developing the skills for life of independent thinking and problem solving.

Students can choose to pursue AQA Design Technology at GCSE or BTEC Engineering at Level 2. AQA Food Preparation and Nutrition is an option at GCSE at Key Stage 4. The A Level option is currently AQA Design Technology Product Design.

The Design and Technology Faculty works closely with other schools in the Redhill Trust within a strong network of support and expertise. Future developments include continued modernisation of the curriculum and teaching resources with an emphasis on engagement and challenge.

We are looking for an enthusiastic, successful and committed teacher to join a close team of hardworking and passionate staff. We can offer excellent professional development opportunities and a chance to join a truly collaborative department with the vision to create a revolutionary learning environment.
