Dear Colleague.

Thank you for your interest in the position of Head of Physics at The Beaulieu Park School. As Essex's only 'all through' school, our school is truly unique. Following a £34 million build, we are delighted to have an environment in which to deliver a truly all through and outstanding education for our students. As Head of Physics, your role will be pivotal in the development of a school that has the highest standards and aspirations for all students, regardless of their background or ability.

This is a unique opportunity for a passionate Physics specialist that has the vision, drive and ambition to create something from the start, nurture it and see it flourish.

This appointment is critical to the future success of the school. The successful candidate will work in close collaboration with the Head of Science (Biology), to realise the outstanding potential that exists when a school and in this case a subject area is created from the ground up. This is a truly creative role where you will have the scope to create, nurture and develop Physics in our school.

When the successful candidate joins us in September, our secondary school will have just taken on its third cohort of students. Our eldest and first group of Year 9 students will be in their options year. Your task will be to lead on the development of the Physics curriculum and method of delivery, provide specialist teaching into GCSE and ultimately into A Level and assisting in the recruitment of additional members of the team as the school grows.

To read more about the vision for our school please visit the school website. If you feel you have the skills and attributes for this position, I would welcome an application from you. I would also be pleased to arrange a telephone conversation or a virtual meeting prior to your application to answer any questions or queries you may have.

The Beaulieu Park School is part of The Chelmsford Learning Partnership, a small multi-academy trust of seven schools, primary and secondary, each with their own unique identity. Our trust is a friendly and supportive one. As an employee within it, you will have the chance to learn from and share your expertise with other schools and professionals within the trust.

Yours faithfully,

James Donaldson
Principal.
