## **Information about the school**

Everyone involved with Orwell MAT is very excited to have this opportunity to open a brand new school. We are looking for someone who will have the creativity and energy to shape the school, and also enjoy working in collaboration with other Trust leaders.

The school is being built to serve the growing housing development in the Chilton Leys area of Stowmarket and is initially planned to open as a 1 form entry primary school. The school will open with Reception, Year 1, and Year 2 in September 2022, and should reach full capacity (YR – Y6) by September 2026. The school building is being designed in such a way that it can be readily expanded to a 2-form entry school, should there be the demand for more places in the area in future years.

There will be a 60-place nursery on site, which will be run as part of the school. The nursery will offer places for 3 and 4 year olds, with a few places for 2 year olds. The nursery building will also be used to offer before and after school care.

The Early years and KS1 classrooms will be housed on the ground floor. The separate nursey building will be situated within the school grounds. There are large grounds, and the plans include grassed and hard play areas and a ball court.
