

Kingsley Learning Foundation Photo Album 2022

featuring
Kingsley Special Academy
Red Kite Special Academy

Play is the very essence of learning and there is no better way to watch the day go by. Our spacious and well-stocked playgrounds offer a million magic moments every hour.

We like to make a splash no matter what we are doing. Just because it's a hydrotherapy pool does not mean it can't be fun. Swim to learn, swim to exercise and strengthen, swim to laugh.

A time-out on the ladder to success for a magic photo-opp. The smile tells the tale.

Physical exercise and opportunities to regulate with physical activity are an essential part of our approach.

Keeping my eye on the prize -
nothing that can't be
overcome with a little grim
determination. We never say
'can't', just 'not yet'.
Meaningful challenge at an
individual level means
meaningful achievement -
that's worth a celebration.

Brings a tear to my
eye, and it's not the
onion. Cooking up a
little independence.
Learning the skills of
living is embedded
within our practice.

Green fingers, green house, green shoots. Enterprise for our young entrepreneurs. We create opportunity to develop leisure interests and employability skills. All work and no play.....

So Wotsit to you
if I fancy a snack
to keep my motor
running during the
day. This ensures
I am available for
learning.

Outdoor learning shatters the walls of the classroom, the clocks of the timetable and reminds that I am always a learner, wherever I am and whatever I am doing.

That giraffe has
some neck showing
his face around
here. I'm gonna
stare him down!
Outdoor learning
indoors - if I can't
go to the jungle
today, it will come
to me.

Look Mum, no hands!
This is wheely wheely
good fun. Play is work
and work is play,
learning and laughing
are two sides of the
same coin.

Who needs rings on
her fingers and
bells on her toes
when the garden is
full of music
growing on trees.

Naturally, the best rises to the top,
and a little help to float to the top is
always welcome. With the right
support, there is nothing I cannot do.

Calypso time in our Music Room. Is this the Corby Caribbean?
Is it a music lesson?
Is it a therapy skills programme?
Is it a visual skills activity?
- No, it's just 'super-learning'.

Let's cut to the chase. Our Occupational Therapists drive our skills programmes. We bring the smiles ourselves.

I'm pretty sure my idea of paradise is a ball pool on a trampoline. The Ark and the Beehive help us get our beans out. Our schools have fully-kitted physical well-being rooms to hit that sensory sweet spot.

The rhythm of the day is
built to make every day a
super-learning day.

A Star is Born, every minute, every day. Sweeter music from a 'can' than from a 'can't'. Releasing the brilliance of every child.

Whose light is shining brighter? My money's on that grin any day. Sensory studios make the magic flow.

Work those pecs!!
Our outdoor gym
raises the level of
challenge and the
gang are only too
happy to oblige.

So happy and contented in her element, loving every moment of her soft play session. The child also looks quite pleased.

Loving the learning in every mode and every style. A Total Communication school gives every learner the chance to show off their own amazingness.

'When we get to the bottom
we go back to the top'....
Playtime is one of our most
productive learning times.

In our Reading Castle we find an adventure on every page. Curl up and share a good book.

Thank you for taking the time to check out our activities and equipment. We are very proud of the excitement in our learning day, with joy and laughter at the heart of everything we do. We hope you get a sense of this positive energy from watching the presentation and that you will be tempted to sprinkle your own magic around our classrooms.

We wish you every success
with the next step in your
chosen career path and
thank you for considering
Kingsley Learning Foundation
in your journey.
