

Message from the Executive Headteacher

We are very proud to be working as part of the Mowbray Education Trust. Our core purpose is to serve everyone who walks through the door, ensuring happiness and success now and in the future.

It is our job to ensure students develop the knowledge, skills and life experiences to go on and lead successful lives and have a positive impact on the lives of people around them.

“Children first” is a shared vision across John Ferneley and I really do believe that every person working at John Ferneley lives and breathes this!

At John Ferneley College, our aim is for **all** students, irrespective of ability or need, to achieve to the best of their ability and go on to lead.

This is an incredibly exciting and important time for John Ferneley College and I hope that you will wish to be part of this wonderful opportunity for our children.

We are looking to appoint an ambitious and highly motivated Teacher of Physics to join our Science Department. As a team of staff, we will lead a truly inspiring learning experience, which will be exciting, fully inclusive and highly successful. Our young people will be encouraged to develop as individuals with an ability to articulate their learning and showcase their creativity and talent. We will not only lead our school to success but also model high aspiration and represent something good for the future so that our young people understand the world and how to change it for the better.

If you are keen to find out more, then please contact Mrs N Teece (Head of School) on: nteece@mowbrayeducation.org to arrange for an informal chat or visit to the college.

I wish you every success,

Christine Stansfield

Executive Headteacher / CEO Trust
