Mayesbrook Park School provides alternative provision for secondary school students aged 11-16 in Barking and Dagenham. There are three campuses and you may be required at times to work across all three, although will be based predominantly at the main campus. There are up to 160 students across the school,

Our core purpose is to raise the attainment and support the well-being of young people who are not in mainstream schools for a variety of reasons, including exclusion, challenging behaviour and social, emotional and mental health (SEMH) issues.

Our latest Ofsted report from April 2024, stated that Mayesbrook Park School was judged as "Good", across the whole school. The last inspection was ungraded and made no change to the judgement of 'good', however, the report stated that the evidence gathered suggested the inspection grade might be outstanding if a graded (section 5) inspection were carried out at that time. The school's next inspection will be a graded inspection.

As Science Curriculum Leader, you will play a key role in leading and developing outstanding and innovative practice in the Science curriculum. We are seeking a well-qualified, efficient, flexible and committed individual who is passionate about their subject and is able to motivate, support, challenge and enthuse students of all abilities. You will work with our committed middle and senior leaders to raise standards and educational achievements. You will understand how to apply our curriculum and adapt learning to overcome the barriers which have previously held our students back, including challenging behaviour and low literacy levels.

This is an excellent opportunity for a dynamic, high calibre individual who is experienced in providing quality first teaching and interventions and meeting the needs of young people with vision, determination and creativity. You will also demonstrate the skills necessary to manage others and to model good practice, including excellent interpersonal and communication skills.

We offer:

- Competitive salary
- Friendly and supportive colleagues
- Energetic vibrant and diverse environment where everyone is valued
- Regular training opportunities
- Further leadership development
