

# Hayesfield

MIXED SIXTH

# Welcome to Hayesfield Mixed Sixth Form

Challenging you to achieve your  
ambitions and fulfil your dreams  
is our goal at Hayesfield Mixed Sixth.

Located in the centre of Bath, our school is a vibrant and exciting learning hub. We have combined state of the art facilities, such as our Nucleus Science Block, Design Studio and Roper Theatre with outstanding teaching and bespoke Sixth Form study areas and social spaces.

We are very proud of the Hayesfield community and our Sixth Form plays a pivotal role in the life of the school as leaders and role models. We have a diverse intake drawn from many schools across Bath, Wiltshire and Somerset which really helps in establishing a unique identity for our Post-16 cohorts.

We have an extensive extra curricular programme, from Hockey to Lacrosse to our lively Debating Society and Gold Duke of Edinburgh award as well as the opportunity to participate in Ski Trips and step out of your comfort zone with experiences such as the World Challenge trip to Borneo. There are opportunities to perform in plays and music showcases as well as bands and choirs. Alongside this is a strong careers programme with independent support and advice to ensure every student can push their own boundaries and discover more about themselves and what they are really capable of. We are very proud of our strong record of supporting students to gain their first choice University as well as expanding their view of the many different Post-18 choices available.

Hayesfield is where you can become the best you can be. Whether you want to be a doctor or an engineer, teacher or entrepreneur, artist or Member of Parliament, we'll help you to create the future you always imagined.

Please do come and visit us and see our Sixth Form students at work.

# Five reasons to choose Hayesfield?

“Students make very strong progress and achieve well across the full range of subjects as a result of outstanding teaching in the Sixth Form. The enthusiastic involvement in their learning”

Ofsted, March 2017

Choosing the Sixth Form that will be right for you may be the biggest decision of your life so far.

Here are five reasons why joining Hayesfield Sixth Form is the best decision you will make:

# 1

**You can be you**

We nurture and encourage the true spirit and individuality of our students. The majority of our students progress to some form of Further Education, with most going to university. Our relaxed dress code allows you to dress to express your personality, just as you will at university.

# 2

**You will join the most inclusive Sixth Form in Bath**

Hayesfield's distinctive and unique curriculum offers five different pathways to success, depending on your individual GCSE results. These pathways are tailored to ensure you are challenged and supported as an individual. Depending on meeting the entry criteria, at Hayesfield you can study four A Levels, take three vocational courses or even keep your options open and study a mixture of both.

# 3

**You will benefit from teachers who are experts in their field**

We provide outstanding teaching across a wide range of academic A Levels and vocational subjects. That's why Hayesfield's Sixth Form was awarded 'Outstanding' by Ofsted in 2017.

Outstanding teaching leads to outstanding exam results – take a look at how well previous students have performed in the back of this prospectus.

# 4

**You will be given opportunities to take a leading role in our community**

Being a Sixth Former is about more than just studying. We provide a wealth of enrichment opportunities which will help you to improve your confidence and leadership skills. You can complete your Gold Duke of Edinburgh Award, take part in a World Challenge Expedition or become a Petty Officer in our Navy CCF. You could also become a member of the Sixth Form Leadership Team and influence strategic development in the Sixth Form or simply volunteer to coach or support our younger students in clubs, activities and lessons.

# 5

**We are unashamedly ambitious for you**

Our Achieving Ambitions programme has been created to ensure you can access your chosen pathway beyond 18. If you are considering a career in healthcare, medicine or education our Pre-Med and Pre-Teach programmes will help you get there.

Our Oxbridge programme is structured to provide the guidance and support to secure your place at the most prestigious universities in the UK such as Oxford, Cambridge, Durham and Warwick.

# Sixth Form Life

Sixth Form shouldn't be all about career plans, study and hard work. It is also a time when you can discover the real you, make lifelong friends and just have fun.

Our bright and comfortable common room is a space where you will have the freedom to relax, share thoughts and ideas and make social connections in between studying.

Our active student social committee works hard to ensure that everyone can participate and have fun in our Sixth Form.

Here is just a taste of some of the annual activities we host:

- **Waffleathon!** Make authentic waffles with our international student guests
- **Yule Ball:** Dress to impress and dance like nobody's watching
- **Annual Panto:** Entertain the whole school and get them laughing with your performance
- **Hayesfield's Got Talent:** A chance for you to shine as a singer or a dancer – you can even launch your own brand of comedy
- **Movie Nights:** A wide range of interesting and entertaining films
- **Summer Prom in Year 13:** Say farewell to Sixth Form life in style

# Life outside the classroom

There is a wide range of Extra Curricular activities that you can lead or participate in. There are over 90 enriching activities available each week so there is something for everyone, helping you build your confidence and leadership skills.

We have a wide range of out of hours activities that you can participate in or lead. Every one of our teachers provides at least one enrichment activity each week, which means you will have access to a myriad of exciting activities to increase your confidence and help you to achieve your personal best.

## Team sports

- Football
- Lacrosse
- Netball
- Hockey
- Tag Rugby

## Enhanced learning

- Chemistry Café
- Beginners Mandarin and Russian
- Korean Club
- Polyglots Languages Club
- Maths Mentors

## Ideas and discussion

- Debating Society
- Ethical Club
- Book Club
- Amnesty International Group
- Model United Nations
- Women in Politics
- Medicine Society

## Entertainment

- History at the movies
- Lego Club
- Minecraft
- Prom Committee
- Social Committee

# Life beyond limits

## Travel opportunities

You can travel to enrich your studies. Or why not travel just because you can! Whatever the reason, we provide amazing opportunities to broaden your horizons.

Here is a small selection of our recent overseas visits:

- Ski trip to Italy, Switzerland and Canada
- Language school in Montpellier
- Exchange to Malaga
- Cultural trip to China
- History trip to Russia
- Biology Turtle Conservation trip to Greece
- Geography trip to Iceland
- Work experience placements in Berlin
- Music tour to Salzburg
- Cultural exchange to Oslo
- World Challenge Trip to Borneo

## Networking opportunities

Three times a year you will have the chance to meet and make connections with local and national business and universities.

- Employability Fair
- Visits to local universities
- Political debates
- UCAS Conference
- Personal financial management for life at university

## International links

We have strong links with schools in France, Germany, Spain, China and Norway. We are also developing links with Denmark, Holland and Colombia! Our international network allows students to participate in amazing international experiences both within and outside the curriculum.

Enrol on the 'Lessons from Auschwitz' programme in Poland where you will learn about the Holocaust and become national ambassadors for Holocaust education.

We also run a 'Euroclass' programme where thirty of Norway's brightest students join us from September to Christmas and fully participate in all aspects of Sixth Form life. You can make friends for life from this stunning Scandinavian country.

## Royal Navy CCF

Supported by the Royal Navy, you will have the chance to undertake officer training at Dartmouth Royal Naval College, take part in disaster recovery training at HMS Raleigh or stay aboard HMS Bristol at Southampton.

On the course you will learn new skills, such as lifeguarding and first aid, as well as gaining RYA qualifications in dinghy and sail boat handling. You can even apply to take part in the world famous "Fastnet" race and crew on Tall Ships.

All CCF activities and achievements can be used towards Duke of Edinburgh Awards. We are one of a very small number of Sixth Forms that can offer these opportunities to our students!

## Duke of Edinburgh Gold Award

A challenging and rewarding programme that will give you the opportunity to complete an adventurous expedition as well as some fantastic community placements to develop important skills of leadership, commitment and resilience.

## World Challenge expeditions

This once in a lifetime opportunity requires dedication and commitment, which is rewarded with a truly life-changing experience. Preparation includes fund-raising to help finance the expedition and developing teamwork, leadership and planning skills.

Recent World Challenge expeditions have involved month long stays in Costa Rica and Borneo, undertaking community projects, an expedition and some well-deserved rest and relaxation.

Where in the world could your Challenge take you?

**"The Royal Navy combined cadet force here at Hayesfield is the perfect opportunity to grow as a person. There are many leadership roles and challenges, trips away to Navy bases and a great way to socialise and develop friendships with other year groups."**

PHOEBE  
RN Petty Officer

**"Excellent attention is given to developing students' wider personal, social and employability skills"**

Ofsted, March 2017

# Leading not following

**Our Sixth Form is a place where you can establish your values, find your voice and make yourself heard.**

There are diverse leadership opportunities throughout our Sixth Form. You can head up, plan and lead our school House system, become a Sports Leader for the school community or represent the wider student body as a Tutor Representative or on the School Council.

By taking on the responsibility of a Prefect role during Year 12 you will develop a range of leadership skills from acting as an ambassador to working with and supporting younger students and leading school events.

In Year 13 you can apply to become a member of the Sixth Form Student Leadership Team. Nomination and election entails a formal interview, involving speeches to the whole staff, which develops important life skills you can take forward into your academic and business career.

You will also find becoming a Learning Mentor for younger students a rewarding and enriching experience. By supporting reading and literacy, coaching for GCSEs and offering organisational support you will be helping the next generation of Hayesfield Sixth Form students become the best that they can be.

We believe in all our students. By offering you a host of opportunities to make the most of your skills and capabilities we believe you can and will become a leader in the future.

# Academic excellence

**As a Hayesfield Sixth Former you will work hard. We repay that effort by ensuring the quality of teaching you receive is outstanding.**

We ensure that your learning is enriched and brought to life with guest speakers, visits to lectures and links with relevant industries.

Ofsted reported that Hayesfield students make progress above and beyond national expectations, consistently achieving over 30% of all entries at A/A\* and 90% of entries at C and above.

At Hayesfield you will benefit from regular and timely feedback from your teachers. By identifying any need for extra help with your writing skills, your numeracy or just your time management we can provide the support and encouragement you need, both in and outside lessons.

We place no limits on your achievements and work with you to remove all obstacles to your future success.

**“Many students report that lessons often feel more like ‘high-powered seminars’ than the lessons they have been used to. They respond to these significantly raised expectations with maturity.”**

*Ofsted, March 2017*

## Extended Project Qualification (EPQ)

Increasingly, students successfully gain their place at a competitive university by undertaking an Extended Project Qualification (EPQ) alongside their A Levels and other qualifications.

The EPQ award is equivalent to an AS Level and is a popular option that you can apply to undertake in Year 12.

You will frame and agree your own topic to research. Supported 1:1 by a mentor, you will receive 30 hours of taught-study skills to prepare you for a further 60 hours of independent research. After this you will submit a dissertation or prepare an artefact with a supporting commentary.

Consistently, almost all Hayesfield students achieve A\*-B in this prestigious qualification.

With the more selective universities providing lower offers to students who excel in EPQ, this is a great way of securing a place at the university you want.

Your EPQ will enable you to demonstrate a wider commitment to your subject of choice. When applying for competitive courses such as Medicine, Linguistics, Psychology or Drama an EPQ will give you a competitive edge!

Previous EPQ projects undertaken by Hayesfield students have included:

- The first play performed in the Roper Theatre. Based on the 17th century witch trials, the play was researched, written, directed and produced by one student.
- Analysis of the efficacy of different protein-based treatments for Alzheimer's
- A portfolio of British women's fashion of the 1950s
- Assessment of the impact on local economies of inward Chinese investment in southern Africa
- Stripping and rebuilding a Triumph engine
- Constructing an eco-friendly Summerhouse

Oxbridge  
programme

yes

A small word, but one with massive potential. It's a word that's central to our name and that sits at the core of everything we do. At Hayesfield you can say yes to:

# Achieving Ambitions

## Helping you to achieve your ambitions is central to everything we do at Hayesfield.

Our careers programme is designed to help you raise your sights and focus on higher education and apprenticeships beyond Sixth Form. We will help you research and identify the best universities for the subject you want to take. We'll provide advice from former Hayesfield students on securing a place at Oxford and Cambridge as well as share information directly from admission tutors on how to achieve a place at Bristol, Exeter and Birmingham universities.

If you're interested in healthcare or education you can also join our professional preparation programmes in Medicine and Education, see page 19 in this prospectus.

We provide:

- Visits to suitable universities
- Attendance to Higher Education and Apprenticeship Fairs to make contacts and find out about different pathways
- Access to an Employability Day where you will meet potential employers from a range of business sectors and learn soft skills such as interview techniques and networking
- A week's professional work experience placement in your chosen field

MR HOWARD LEE  
Sixth Form Tutor Team

“Being a Sixth Form tutor is all about supporting students over these two transformational years. Whether it's supporting the transition from GCSE, getting involved in the student-led fun charity events or providing support on application forms for the next stage, being part of this process is a unique privilege.”

### Tutorial support

We operate an outstanding tutorial support programme. You will be assigned a personal tutor who you can meet every day to discuss everything from current affairs, personal and health issues. They will also be able to help you make decisions on your future plans for university and employment. Tutors will also work with you to set personalised targets for academic improvement.

Our structured and supportive process ensures that your study programme is perfectly matched to your individual attributes and ambitions.

### Progression through Sixth Form

All our courses in the Sixth Form require two years of committed study. Internal exams are held in May of Y12 and January & April of Y13. These are used to identify areas in which you are excelling as well as any areas in which you need to improve. You will be offered additional support at a time convenient to you.

“Being a Sixth Form tutor is one of the most rewarding aspects of my job. From the simple joys of an early morning Guardian quiz to supporting a student's mammoth effort and subsequent excitement of a successful UCAS application, the tutorial system is what sets Hayesfield apart as a Sixth Form.”

MRS RACHEL SAYLES  
Sixth Form Tutor Team

# Medicine and Education Programmes

## Pre-Med Programme

If you have ambitions to pursue a career as a doctor in social care, nursing, medicine, physiotherapy, dentistry or veterinary medicine our Pre-Med programme provides all the support you need to succeed. Our MEDSOC is central to this programme, providing a forum where you'll have regular talks on healthcare topics, access links to local universities and have a chance to explore scientific and ethical issues in depth.

In addition, you'll get support in:

- Applying for RUH Sixth Form Medical Conference
- Applying for Bristol University's Pathways to Health programme
- Coaching for UKCAT or BMAT
- Additional work experience opportunities
- Interview practice with local professionals

SAM  
Y12 Student

"Hayesfield have given me constant support and help with my application and preparing for a career in medicine. Specialist teachers and their knowledge has really set me up for a bright future!"

## Pre-Teach Programme

If your ambition is to become a teacher or an education professional our Pre-Teach programme helps you to find out more about the rewards, gain work experience in different sectors and explore the science of teaching.

The programme provides:

- Work with the education departments of local universities
- Teaching assistant work experience
- Workshops on education and pedagogy
- Pre-interview support and practice
- Links with existing teacher training students
- Collaborative education projects

# Oxbridge Programme

**If you have ambitions to achieve academic excellence in the world's best academic institutions, we will provide all the support and encouragement you need.**

For those wishing to apply for medicine, veterinary science, dentistry and all subjects at Oxford and Cambridge, our Bespoke Pathway provides all the tools and support needed to succeed. If you would rather apply for elite courses in other subjects, e.g Maths at Warwick, you may also be encouraged to attend this pathway.

Our Sixth Form has an excellent track record in supporting applications to elite universities and courses – for the last five years, every Hayesfield applicant for medicine has secured a place.

Our programme includes:

- Residential visit to Cambridge
- Visits to Oxford
- Weekly debating group "The POD" to develop verbal and thinking skills
- BANES Oxbridge Conference
- Talks/visits from alumni
- Specific personal statement and interview preparation
- Entrance exam coaching
- Opportunities to attend university-level enrichment
- Support to apply for University summer schools
- Opportunities and support to enter Oxbridge College competitions, such as Peterhouse Cambridge

Medical and veterinary students are given additional support to:

- Apply for Sixth Form Medical Conferences and support programmes
- Apply for Bristol University's Pathways to Health programme
- Coaching for UKCAT or BMAT
- Additional work experience opportunities
- Access relevant talks in school, online and in local universities

"The Oxbridge programme is a great experience. I enjoyed the trip to Oxford where we visited a few of the colleges and talked to current students there. The programme set us up really well with lots of specialist advice."

FLORENT  
Y12 Student

# Pathways to success

Hayesfield is proudly inclusive and geared to the needs of each individual. We offer differentiated pathways depending on your abilities and ambition. We will help you to choose the path you want to take and we'll provide all the support you need to help you to get there.

We create academic study programmes tailored to meet the specific needs of each student. By selecting the courses and extra-curricular activities which suit your requirements and abilities we can take you a step closer to a destination with a prestigious employer or university. To fulfil your dreams and achieve your ambitions.

At the back of this prospectus you will find our current list of courses.

Pathway	Suitable if you are on track to achieve...	Find out more on page...
Bespoke	8 or more grades 7/8/9	23
Aspire	6 or more grade 6s	24
Inspire	7 or more grade 5s	25
Explore	7 or more grade 4s	26
Endeavour	5 or more grade 4s	27

# Bespoke pathway

We actively encourage our highly academic students to extend and challenge themselves. By providing access to qualifications and experiences outside the standard curriculum we will equip you with the skills and experience to open up the widest possible choices on graduation.

If you apply for this highly selective pathway we will inspire you to achieve above and beyond your expectations. The outstanding quality of our teaching will provide you with the confidence and qualifications that will ensure that you stand out from the crowd when applying for elite institutions such as Oxford and Cambridge.

“Life at our sixth form is truly enjoyable. Great friends are made easily, and events and projects keep us busy! Hayesfield has great opportunities to show who you are and extend your skills, and our sixth form is a thoroughly welcoming place to be.”

CAITLIN  
Y12 Student

# Aspire pathway

This exciting and academically focused pathway is structured to prepare you for entry to one of the UK’s top universities. You can combine rigorous academic study with the flexibility of an Extended Project Qualification or Core Maths. A study skills programme will support your learning and supervised study periods are structured to maintain your academic focus. You can also get involved in enrichment opportunities to develop your personal skills.

We work closely with local universities in Bath and Bristol to provide you with access to taster courses. Our tutors will prepare you for the university application process by sign-posting programmes such as On Track to Bath and Access to Bristol.

This is the most popular pathway at our Sixth Form.

Entry requirements	At least 8 Grades 7 to 9 at GCSE (including English and Maths)	Enrichment	<ul style="list-style-type: none"><li>◦ Tutorial programme</li><li>◦ University visits to elite universities such as Birmingham, Bristol and Oxford</li><li>◦ Team-building activities</li><li>◦ Careers education</li><li>◦ BANES Cambridge trip (limited places)</li><li>◦ BANES Oxbridge conference</li></ul>

# Inspire pathway

If you have the desire to study at a higher level but need a little additional support to make the transition from GCSE, this pathway is right for you. We recommend taking 2 A Levels plus a vocational course while acquiring broader skills through schemes such as the UWE Heading Higher Passport.

We will provide extensive support to prepare you for your post-18 destinations. University visits and visiting speakers help guide your higher education course selection and careers lectures in the Spring Term provide a platform to network with potential employers. You will also receive quality information about higher apprenticeships as an alternative to university.

This pathway will help prepare you for higher education application or a higher apprenticeship.

# Explore pathway

This pathway allows you to choose vocational subjects with a greater focus on practical application and coursework. Featuring employability workshops, you will build on your practical skills and strengths, and a wide range of professional work placements will provide valuable employer contacts and networking.

All vocational courses are Level 3 (A Level equivalent) which means you can progress to study at university or undertake career-development apprenticeships.

This pathway also provides you with the opportunity to try out a number of vocational routes in order to make an informed choice about which is the right one to pursue post-18.

Entry requirements	7 or more Grade 5s at GCSE (including English and Maths)	Enrichment	<ul style="list-style-type: none"><li>◦ Tutorial programme</li><li>◦ University visits such as USW, UWE and Bath Spa</li><li>◦ Team-building activities</li><li>◦ Careers education</li></ul>

International learning	<ul style="list-style-type: none"><li>◦ Opportunities for international visits</li><li>◦ Subject links</li><li>◦ Global Employability lecture programme</li><li>◦ Peace Conference</li></ul>		

# Endeavour pathway

This pathway allows you to develop vocational learning though a range of Level 3 Applied Generals and Cambridge Technicals. With this flexible pathway you can combine the study of a single area in depth, for example qualifications such as Childcare and Health and Social Care alongside a single award in another vocational area or suitable A Level.

You will have access to at least two work placements during your vocational course where you will gain invaluable information about accessing apprenticeships. If you wish to go on to higher education you will be supported to make applications for a foundation degree.

We consider applications from students without a Grade 4 in English or Maths on a case by case basis and offer GCSE re-sit groups where appropriate.

Entry requirements	5 or more Grade 4s at GCSE (including English or Maths)	Enrichment	<ul style="list-style-type: none"> <li>◦ Tutorial programme</li> <li>◦ Taster lectures from universities and colleges with vocational courses</li> <li>◦ Visits to UWE and Bath Spa universities</li> <li>◦ Visits to Higher Apprenticeships Fairs</li> <li>◦ Team-building activities</li> <li>◦ Careers education</li> </ul>
Core programme	Health & Social Care, Childcare & Early Years Education plus one other vocational course

# Beyond Hayesfield

We are passionate about helping you to achieve your ambitions. Using our extensive knowledge, experience and network of contacts across academia and business we will provide you with all the support and encouragement you need to achieve your best: the best opportunities, the best apprenticeship and the best university.

Our students are distinctive and stand out when applying for universities, apprenticeships and employment in the UK, Europe and beyond. You can find out more about where a sixth form education at Hayesfield can take you in our Destinations List in the back of this prospectus.

At our Sixth Form you will make friends for life, develop your talents and forge the future that you dreamed of. We believe in your potential and we will work hard to make the most of it.

We look forward to working with you to achieve your ambitions.

“All students have work based experiences as well as becoming involved in, for example, charitable and community work.”

Ofsted, March 2017
