Smiling, learning & achieving together

Be respectful, resilient and responsible

Dear Potential Applicant,

I would love to invite you to come and visit our lovely small school which is set in the heart of a supportive and caring community. Our children are kind well behaved and eager to learn and our families are very supportive and highly engaged with our school.

I know how vital the role of a Teaching Assistant is particularly within Early Years and I am keen to appoint an EYFS Teaching Assistant who truly loves working with children and is caring creative and enthusiastic. We are looking for someone who brings great ideas strong knowledge and a genuine passion for early learning to share with our whole school team.

The role of an EYFS Teaching Assistant is significant. You will often be the first experience many families have of our school acting as a vital link and positive role model in ensuring that every child's education begins on the right path. You will also have the opportunity to work within our wonderful outdoor learning environment alongside a lovely and supportive team of staff helping to further develop and enhance both our indoor and outdoor provision.

As a headteacher who has worked in both Nursery and Reception I fully understand how important it is to get this right from the very beginning. I am keen to work with someone who truly cares about young children and wants to help shape their early learning experiences and future success. If this sounds like your passion I would be delighted for you to arrange a visit to meet me and look around our school. Please give the office a call on the number above.

Yours sincerely,

Mrs Sophie Ruddiforth

Headteacher
