

Information for Candidates

BUSINESS STUDIES VACANCY

The Business and Economics Department has four members of staff who collaborate closely and effectively. The post would suit an inspiring, enthusiastic teacher at Key Stages 4 and 5 and would be suitable for both ECT's and applicants with previous teaching experience. The successful candidate will be able to teach both business and economics to A Level standard and use current business and economic news to highlight the links between the subjects and the real world.

At Key Stage 4 we offer GCSE Business (Edexcel / Pearson specification) with currently five groups in total running across Years 10 and 11. In addition, we offer a BTEC Tech Award in Enterprise with one class running in each year group.

We have consistently good GCSE results with around 70% of students attaining a grade 9-5 and in the region of 30% a grade 9-7. Typically, over 75% of the BTEC Enterprise students have attained a Level 2 pass or merit.

At Key Stage 5 we offer both A Level Economics and A Level Business (AQA specification) and normally run at least one group in each subject in both Year 12 and Year 13. GCSE Business is not a prerequisite for either subject. Generally, a good proportion of GCSE Business students who continue to KLB Sixth Form, take the A Level Business or Economics course. In most years we also have several students who have not previously taken a business course.

Typically, more than 50% of students attain an A*- B, and the vast majority achieve at least a C grade. The further study of a business or economics related course in Higher Education is a popular option.

If you would like further information or have any questions, then please feel free to contact me using the email below.
