

# **Business Studies Department**

The Business department at Chase High consists of two members of staff. All members of staff contribute to the development and management of this department. Resources are shared and revised each year. We have a large bank of resources that are available for teaching across all key stages

At KS4 we teach GCSE Edexcel Business and at KS5 we teach Level 3 BTEC Business Extended Certificate and Diploma. We also run the IFS CeFE qualification as re sit option in Post 16.

The department is well resourced and we have classrooms in the Post 16 Building and in our newly opened block. In the classroom students have access to laptops or PCs to support with their learning. Students enjoy our subject and are focused on their learning and success.

We are a supportive, friendly and hardworking team who work closely together to ensure consistency across the department and frequently support each other. As a department we have trained unqualified teachers and supported NQTs through coaching and mentoring. We are passionate about our subject and enjoy inspiring creativity and developing leadership skills in our Business students.
