Job Title:	**Teacher of Computer Science**
Start Date	September 2026
Grade / Salary:	MPS/UPS
Contract	Permanent; Part Time, 0.8 FTE

Role Overview:

The Subject Teacher will contribute to the delivery of Computer Science across Key Stages 3–4. The successful candidate will deliver high-quality teaching, support excellent pupil progress, and play an active role in the wider school community.

The successful candidate will:

- Teach Computer Science from Year 7 to 11.
- Plan and deliver challenging, engaging and differentiated lessons which enable high levels of progress across all subjects.
- Maintain high standards of behaviour to ensure learning can take place.
- Deploy a range of effective teaching strategies to engage students.
- Mark student assessments, provide constructive feedback, and monitor progress.
- Use relevant attainment and behaviour data to support pupil progression.
- Communicate regularly with Heads of Department regarding pupil achievement.
- Participate in mentoring and intervention sessions when required.
- Contribute to departmental curriculum development in all relevant subjects.
- Support the development of cross-disciplinary learning where appropriate.
- Make an active contribution to the extra-curricular and co-curricular life of the school.

Person Specification:

- Well-qualified graduate in Computer Science.
- Hold, or be working towards, a recognised teaching qualification (PGCE or equivalent).
- Passionate about academic rigour in all subject areas.
- Committed to diversity, equity, and representation in teaching and learning.
- Enthusiastic team-player; resilient; positive; and with a good sense of humour.
- Strong written and verbal communication skills. Effective ICT skills.
- Willingness to contribute to the pastoral life of the school, including acting as Form Tutor.
- Commitment to the wider ethos and enrichment activities of the school.

Please be aware that candidates submitting generic applications, which make scant or no reference to the school, will not be shortlisted.
