

September 2021

Dear Prospective Candidate,

Thank you very much for considering Kingstone. I am pleased that you are interested in applying for this post of Computer Science, at the Academy Trust. The position becomes available because of our well established computer science specialist is moving abroad.

This is my second year as Executive Head of the Trust and I am excited about the future for both the Primary and Secondary schools within the organisation. I have come to the trust after three years abroad and I am a big believer in the impact that computer science can have on a child's long-term future.

The recruitment of a positive computer science professional is crucial to the immediate and long-term impact of the subject with the Trust. You will be joining a faculty and school that are both welcoming and supportive. Having gone through the interview process relatively recently myself, I have found a friendly environment with staff and students wanting only the best for the school.

If this is an environment that appeals to you, then please complete the application form including a supporting statement (no more than two sides) highlighting what you have done and what impact it has made.

Good luck and I look forward to hearing from you.

Yours faithfully

David Bennett
Executive Headteacher
