

## **Computing Faculty**

### **Introduction**

In Computing we seek to share our passion for the subject and to guide students safely through the world of technology that surrounds them. We seek to ensure that students are digitally literate and safely equipped for life in the 21<sup>st</sup> Century.

As a department we are committed to helping our students reach their full potential and are proud of our success in enabling them to gain confidence and become resilient in all key stages; helping them to progress in their future careers.

### **Academic Performance**

In Key Stage 4 students averaged (in the last two examined years - 2018/2019) 78% at grade 4+ and 32% at grade 7+.

In the Sixth Form Computing averaged 85% A\*-C (in the last two examined years 2018/2019) with an average ALPs score of 3.

### **Staff and Accommodation**

The department is currently a team of three teachers delivering Computer Science at A Level and GCSE as well as BTEC Media at KS4 and KS5.

We are a dedicated and experienced team that provide all of the support that will be needed with the different courses. Average class sizes in KS4 is 20-25 students and at KS5 classes are usually between 10 and 12 students.

### **Curriculum**

The Computing faculty has high expectations of our students. The department is well supported with text books and software available for students. Furthermore, students are actively encouraged to utilise subject resources from home using the schools remote access facility.

We look forward to hearing from you.
