ACHIEVEMENT & EXCELLENCE

HEDINGHAM SCHOOL
AND SIXTH FORM
ACHIEVEMENT & EXCELLENCE

April 2025

OFFICIAL SENSITIVE
Dear Candidate

Thank you for your interest in Hedingham School and the position of Teacher of Design and Technology.

Please find enclosed an Application Pack outlining the process you should follow. I appreciate the time and effort it takes to prepare and make an application and I thank you in advance. When writing your application, please address the job description and person specification enclosed and explain why you are suited to this role, specifically at Hedingham School.

Should you wish to discuss the role prior to making an application please contact Mr Chris Abrey, Deputy Headteacher, hed.abreyc@hedingham.essex.sch.uk.

In addition we welcome any candidate that wishes to visit the school prior to application. If this is something of interest, please email Mrs Sands, my PA on hed.sandsj@hedingham.essex.sch.uk.

I look forward to receiving your application.

Yours sincerely

Paul Finch
Headteacher

Hedingham School and Sixth Form

Context

Hedingham School and Sixth Form is an over-subscribed, independent Academy situated in an attractive village in North Essex (within easy reach of Braintree, Chelmsford, Colchester and South Suffolk). Our students are polite and engaged and love to learn and our parental body is highly supportive. As one student recently put it when speaking to an Ofsted inspector, "The school values shape us into adults."

We are a school that values its history, maintaining traditional events and initiatives that are deep rooted in the local community whilst embracing new technologies, such as our offer of T-level Digital Business Services in our new state of the art T-level building, alongside our rural vocational centre supporting students towards pathways into local business and employment.

Hedingham School provides a high-quality educational experience for all students and strives to ensure that each individual's academic and personal development is fulfilled.

We offer a vibrant learning environment where students are encouraged to 'think' and explore strategies to grasp and apply knowledge.

The curriculum offered is purposeful and stimulating, allowing students to build a range of skills as they progress through school.

We want our students to be resilient and take on the challenges of the 21st century. We encourage them to approach school with confidence and participate fully in all aspects of school life. We work hard to shape student character alongside ensuring that they have the necessary knowledge and skills for examination success.

At Hedingham School, our students support and care for each other and display high levels of respect for all members of the community. Hedingham School has a strong 'culture' which actively promotes equality of opportunity, allowing all students to pursue their ambitions.

We believe in building strong partnerships with parents, based on trust and confidence.

Ofsted 2023

MISSION STATEMENT

'Hedingham School seeks to create a challenging and stimulating learning environment that encourages high expectations for all learners. Students are prepared for life in the 21st century through a safe, caring and supportive environment. We strive to foster positive relationships with students and staff, offering mutual respect for all members of the community.'

OUR SCHOOL MOTTO IS:

READY RESPECT SAFE

VISION

This vision is driven through our school curriculum. Our aim is to ensure that the curriculum delivers the following principles:

To provide the **knowledge and skills** required to be successful learners

To create **resilient and independent** learners who are able to meet the challenges of the 21st century

To prepare learners for the **next step** in their education

To **broaden** their **horizons** through a rich and varied enrichment programme

To encourage learners to be **active citizens** who contribute positively to the community

Why Work With Us?

We care about your well-being:

At Hedingham School and Sixth Form, our teachers' well-being really matters. That's why our leadership team carefully consider the impact that every decision will have on staff workload (Ofsted – March 2023). We value the importance of our staff and recognise the direct impact that they have on shaping the futures of our students. As such, we continually try to forge an environment in which they can flourish and develop.

Twice a term, we also have well-being weeks, which clear the calendar and enable staff to indulge in yoga, badminton, art classes or whatever encourages them to unwind and interact with colleagues.

Opportunities for career progression:

Staff are consistently offered opportunities to progress their career within the school as well as undertake whole school temporary projects as a stepping stone to wider responsibilities. Many of our staff that have taken on leadership roles in the school have progressed from within.

Training Opportunities:

We have a strong commitment to continuous professional development, using both internal and external expertise, with currently more than 20 team members undertaking National Professional Qualifications supported by the school. Many of our staff are Lead Subject Mentors for the local ITT hub. We encourage staff to lead CPD with colleagues but offer remission time to plan and refine their training sessions on the recognition that one hours high quality delivery often requires 5 hours in the planning.

Be involved in our broad curriculum offer:

As a teacher, often part of the enjoyment of working with children comes from experiences out of the classroom. We offer opportunities for staff to be involved in trips and visits including water sports trips, ski trips, theme park visits, New York, Duke of Edinburgh as well as more local visits that are built into subject curriculum offer as well as our wider personal development programme.

Design and Technology Department

All students up to the age of 14 study Design and Technology with a large proportion of students opting to study the subject at GCSE level. Students can make a wide variety of products using materials such as timber, metals, plastics, textiles, electronics and food. A significant number of students go on to study Design and Technology at 'A' Level. Students work on a range of projects where they design and make products which could be sold commercially. As well as learning about materials and equipment, all students are expected to work under Health and Safety guidelines.

Technician staff are encouraged to work with both teaching staff and students in the preparation of materials and equipment for lessons.

Ofsted recognised the work of the department by quoting that "the level of commitment and teamwork amongst teachers, including their support staff is highly commendable. Overall, this is a very good department".

Curriculum Intent

Our curriculum is structured to provide all students with the opportunity to design and make a wide range of products using a diverse range of skills and equipment to develop their interests and confidence across the varied focus areas within the department.

Students will learn how to generate and present their own design ideas and then realise their design intentions by independently working with a wide range of media and materials to produce unique practical solutions to design challenges.

We aim to develop each student's interest and curiosity for the subject by enabling students to work with an increasing level of autonomy to enable students to respond individually to real life design opportunities.

The KS3 and 4 curriculum maps are available on the school website.

Disciplines at KS3 and KS4

Graphics
Three Dimensional Design
Textiles Design
Food Preparation and Nutrition

The department is made up of 5 members of teaching staff who at KS3 teach across all disciplines and specialise in at least two areas at KS4.

Our current exam board for GCSE is OCR with the intention to move to EDUQAS September 2025.

KS5

Three Dimensional Design (OCR) is taught at A Level. Currently two specialist teachers support with our Post 16 DT offer.

JOB DESCRIPTION and PERSON SPECIFICATION

Leader of Design and Technology

Salary TMS

Effective Date: September 2025

Job description

We are seeking to recruit an enthusiastic Design and Technology specialist to work within a thriving and highly successful D&T learning area.

The successful candidate will be responsible for teaching primarily KS3 and KS4 students. We are looking for a teacher who is both knowledgeable and passionate about their subject. This person will become fully involved in the ethos of the department and contribute to the continued development and raising achievement of our pupils.

We have very strong core principles which provide students with a sequential and progressive curriculum. This enables them to build key skills.

As students work through each year and Key Stage we encourage them to be creative and ambitious. The successful candidate will share this philosophy.

An interest in extra-curricular activities is essential. Knowledge of ICT and CAD applications would be advantageous.

The Governors wish to appoint a teacher who is able to demonstrate the following:

Professional Qualities

- Good graduate
- Have the ability to teach up to GCSE
- Commitment to maintaining and raising standards
- To help develop resources within schemes of work
- Awareness of the implications of target-setting within assessment
- Good grounding in their subject knowledge
- Ambition for career development

Interpersonal Skills

- Ability to inspire students
- Ability to be innovative
- Team player
- Ability to recognise and cater for individual learning styles
