## **THE DESIGN TECHNOLOGY CURRICULUM AREA**

Design Technology is taught by a team of 8 teachers. The responsibility structure is built around the Curriculum Area Leaders who are responsible for co-ordinating curriculum developments, student assessment, monitoring of progression and the day to day running of the Curriculum Area.

In Year 7 students follow courses in Food and Nutrition, Design and Technology and Textiles spending a term on each developing their basic skills in these specialisms.

In Years 8 and 9 students rotate around 6 units, studying food, polymers, timbers, metals and e-textiles.

At Key Stage 4 students currently have the opportunity to gain Level 2 qualifications in Design Technology and Hospitality and Catering. These courses remain popular choices for Jack Hunt students.

A Level Design and Technology: Product Design is becoming an increasingly popular option in the Sixth Form.

The Curriculum Area follows the design process closely but believes very strongly in developing individual skills and interest and is committed to providing equal opportunities for all students. Although based in a material area for a project the students are not confined to working with one material but are encouraged to explore a range of suitable materials which best suit the situation and proposed solutions. The use of IT forms an integral part of the design process and students use a wide range of software to present, analyse and disseminate information in addition to modelling ideas. Accessible food education is important for all. Students are provided with a broad range of opportunities, reflecting the multicultural community we serve, in which to learn practical cooking skills, whilst developing their understanding of nutrition.

Design Technology has become a popular area of the curriculum, and this is in recognition of the important and valuable contribution it can make to the learning experience of each student. The Curriculum Area has expanded over recent years, offering some excellent facilities including a large specialist workshop with a machine area that has four large lathes and milling machine. Attached to this area is a foundry area, with a brazing hearth, enamelling kiln and welding bay. Materials are stored in a secure area and are prepared in a separate machine area where there is a planning machine and circular saw facility. Generally, there are good facilities to carry out all manufacturing processes. A part time Technician supports the work of the teachers.

There is a well equipped and purpose built IT room and the Curriculum Area have invested in 5 CAD/CAM machines, 2 laser cutters, 2 3D printers and a vinyl cutter.

Food has become an increasingly popular choice at KS4 with numbers tripling over the past three years. There are two well-equipped food rooms with classroom space in between. Each room has 8 cookers with recently fitted blast chillers in each kitchen. The work of staff and students in this area is well supported by an experienced Technician.

The technology curriculum area is self-contained. In total there are 8 work areas, good storage and a staff planning area.

cont....

To date, we are very proud to say that four students have successfully been awarded the Arkwright Scholarship.

Beyond the school day, the Curriculum Area supports work in the relevant sections of the Duke of Edinburgh Award Scheme.

The Design Technology Curriculum Area is lively and enthusiastic with teachers working extremely well as a team to support each other. Colleagues continuously work in harmony to further develop their subject and pedagogy expertise to ensure that each and every Jack Hunt student is given every opportunity to excel in this exciting and innovative curriculum area.
