THE SCHOOL

Exceptional opportunities, exceptional outcomes

We are proud of the high quality education we offer at Honley. We are traditionally one of the highest performing schools in the region and this is directly attributable to the hard work and dedication of our entire staff team. We want our children to be the best that they can be and so there is a continual drive to develop and improve as professionals. As Ofsted stated following our last inspection: *"Pupil outcomes are good because teachers have high expectations of what children can achieve and plan interesting tasks that engage pupils in their learning."*

But these crucial years of adolescence are about more than exceptional performance in examinations. The world is changing more rapidly than any one of us can predict, and if our children are to thrive, they will need to develop personal skills and qualities alongside their academic qualifications. They will need a questioning mind, perseverance and resilience. They will need to be adaptable, creative and self-disciplined. These attributes are hard to measure but equally important, and we see it as our duty to develop students' character, as well as pursuing academic excellence.

We are nationally recognised for our sporting achievements and have a proud and enviable record in technology, drama and the creative arts.

Honley High is a fantastic place to work and learn, and we are always aiming to develop even further. We live by our school motto. The quality of every interaction we have with students and staff establishes a culture where everyone can 'strive for the highest' and achieve great things.

We are looking for an extraordinary individual to join our school and really make a difference in the lives of our young people.

Liz Lord, HEAD OF SCHOOL

"I am pleased that the school has such high standards and expectations for the children and encourages them to meet these at all times; this sets the children up for later life. Whilst striving for these standards, the school maintains a nurturing environment."
