

## Area of Learning Information

Food Technology is part of the Design Area of Learning and the successful candidate will be part of a strong team that includes Art, Photography, Design Technology and Food Technology across the 11 – 16 age range.

The school has one specialist Food room, two specialist DT rooms, and two Art rooms which can be used a flexible combined space.

<b>Area of Learning:</b>	Design
<b>Subjects:</b>	Design Technology, Food, Textiles, Art, Photography
<b>Director of Learning:</b>	Hannah Brohier (Teacher of Art and Photography)
<b>Teachers:</b>	Vacancy (Teacher of Food) Sharon Porter (Teacher of Design Tech & Food) Vikki Brown (Teacher of Art and Photography) Simon Clemmett (Teacher of Design Technology & Food)

### KS3

- At Key Stage 3 all students study DT in Year 7 and 8, covering a range of projects in wood, metal, plastic and electronics.
- All students study 2 terms of Food in Year 7 and 1 term of Textiles.
- In Year 8 they focus solely on Food.
- In Year 9 students all students study Art, Food and DT for 1 hour per week.

### KS4

- In KS4 students may choose to study GCSE Design Technology (Eduqas) and usually there are at least 2 GCSE option groups each year. GCSE DT is one of the school's most successful subjects.
- Across a 3 year average GCSE results have been around 80% 4-9, with at least 25% achieving 7-9.
- Students studying Food and Nutrition (AQA) are equally successful with an average of 70% or higher achieving grades 4-9.
- Other subjects in the Area of Learning are similarly successful with students in Art and Photography regularly achieving in excess of 85% 4-9.
