Enterprise Education
Kesteven and Grantham Girls' School

Introduction
The Enterprise Faculty facilitates and promotes enterprise education throughout Kesteven and Grantham Girls' School. It delivers subjects that at heart require an enterprise capability be it in designing a product, using an IT package or creating a program, starting a business or tackling economic issues. The emphasis is on academic rigour married with an enterprising approach to problem solving.

The Curriculum
The Faculty of Business and Enterprise is responsible for delivering the following subjects

Key Stage 3
Design and Technology
Computer Science, Information Technology and Digital Literacy

Key Stage 4
GCSE Computer Science
GCSE Business
GCSE Economics
GCSE Design and Technology
GCSE Food and Nutrition

Key Stage 5
A Level Computer Science
A Level Business
A Level Economics
A Level Design and Technology

The Faculty Structure
The faculty is extremely fortunate to be served by an experienced dedicated and talented team of staff.

There is a Head of Enterprise Faculty who is currently supported by two 2nd in Faculty who have responsibilities as assigned by the Head of Faculty. The Head of faculty is an experienced Computer Science teacher and the newly appointed member of staff will work alongside him.

Accommodation
The faculty is predominantly housed in a discrete area of the school with 4 well-equipped Design and Technology rooms, 3 excellent Computing/IT rooms and two dedicated Business and Economics rooms, one of which has computers for research. There is also a staff room in the enterprise area close to all the teaching rooms.

Departments

Computing
At present the Computing department has a computing subject lead with a small team of staff contributing to the teaching of Computing at key stage 3.

The subject offers the following courses
Year 7, 8 and 9:   E-Safety, Digital Literacy, Computational thinking and Programming
Year 10 and 11:   OCR GCSE Computer Science

Year 12 and 13:   AQA A Level Computing

The department offers enrichment through clubs and activities including BEBRAS, Amazon GetIT, Code Club and other STEM related activities, such as the GCHQ Cyber Discovery competition.

Design and Technology
At present the D&T department has six members of staff with subject specialists in Graphics, Textiles and Food Technology.

The subject offers the following courses

Year 7, 8 and 9:   D&T (4 areas RM, Graphics, Textiles and Food)
