

Humanities is a forward thinking and hardworking Faculty. The team of staff employed within Humanities are a strong unit, very supportive of each other and welcoming of new staff. At KS3, members of the Curriculum Area can teach across the range of subjects we offer which are: History, Geography and Ethics and Philosophy (EP). As a result, lessons are structured to enable non-specialists to feel confident with students being encouraged to learn through enquiry based lessons.

There is good access to ICT with the Faculty owning 2 laptop trolleys and having a designated ICT room. Textbooks and other resources are constantly being updated and evaluated.

This position offers an excellent opportunity for an experienced candidate to further develop their skills in a large and successful faculty. It also offers less experienced candidates, including NQTs, an excellent opportunity to develop, with the potential to teach across the Humanities subjects. We welcome applications from both.
