Information about the Faculty

The faculty is comprised of ten members of staff, including a small number of non-subject specialists. We have a good provision of facilities including eleven dedicated Mathematics classrooms in addition to a faculty work area.

We are a reflective and ambitious faculty and entering an exciting period of transition, with a clear focus on teaching and learning and a commitment to continuing professional development. We are working hard to nurture a culture of collaboration and teamwork; helping to reduce staff workload whilst ensuring consistent, high-quality lessons for all students. The members of the faculty are eager and enthusiastic practitioners, motivated to improve and to provide the very best opportunities for the children that we teach.

At Key Stage Four, the faculty offers GCSE Mathematics with 10 teaching groups in Year 10 and 11, following the AQA syllabus for Higher tier and OCR for Foundation tier.

At Key Stage Five, the faculty offers GCE A-Level Mathematics and continues to recruit a good number of students from our Year 11 cohort as well as some external candidates. A-Level results have been consistent in recent years with several students choosing to study Mathematics at university.

We look forward to welcoming a dynamic and enthusiastic new member of the faculty, who would like the opportunity to be an integral part of our development and future success. If you have any further questions please contact me by email on l.kaye@lordgrey.org.uk
