

Teacher of
Mathematics
Full or Part time considered

Job Description

Job Description

Introduction

This job description should be read in conjunction with the current School Teachers' Pay and Conditions Document and the provisions of that document will apply to the post holder.

The performance of all the duties and responsibilities shown below will be under the reasonable direction of the Headteacher; and the Headteacher, or other Senior Manager if appropriate, will be mindful of his/her duty to ensure that the employee has a reasonable workload and sufficient support to carry out the duties of the post.

This job description will be reviewed at least annually and any changes will be subject to consultation. The school's Grievance Procedure will be used to resolve any dispute arising out of the job description. Other relevant policies may be the Stress at Work Policy and the Dignity at Work Policy.

General Duties

Waingels is committed to safeguarding and promoting the welfare of children and young people and expects all staff and volunteers to share this commitment.

You will be expected to carry out the professional duties of a teacher as outlined in the School Teachers' Pay and Conditions Document currently in operation, or any subsequent legislation. These include:

Strategic Development and Self Evaluation

- Contribute to the monitoring & evaluation of the department
- Contribute to the development and evaluation of the departmental development plan
- Comply with all Waingels' Policies including Health & Safety and Risk Assessments
- Undertake lesson observations as part of the departmental observation schedule and for own and other professional development

Job Description:

Teaching and Learning

- Plan and deliver well-structured lessons
- Mark and assess student work
- Take responsibility for own professional development and ensuring best practice in classroom teaching and learning
- Keep subject knowledge up to date
- Contribute to the development of departmental schemes of work
- Contribute to development and implementation of new courses
- Participate and contribute to the organisation of cross curricular activities.
- Participate and contribute to the organisation of school visits that contribute to student learning
- Provide extra-curricular opportunities that are an essential part of the subject provision
- Regular attendance at meetings and parents evenings that are a part of directed time
- Provide student work for display purposes
- Supervise students between lesson times

Student Achievement

- Annually review the attainment outcomes of students you have taught and assess/quantify the impact of own teaching on student learning
- Fully contribute to the schools assessment and recording system including assessment data and identification of a student's targets prior to data collection
- Monitor progress to this target and develop strategies to enable the student to achieve their targets
- Keep accurate records of student progress including attendance, homework, outcomes of assessment
- Keep relevant staff informed of issues in attainment and poor performance and steps taken to address this.

Tutoring

- Acting as form tutor supporting the personal, social and spiritual well-being of students
- Acting as form tutor liaising with parents, staff, other agencies where appropriate alongside the Head of Year
- Deliver the Pastoral Curriculum Programme
- Monitor student attendance

Job Description:

General Responsibilities

Taking appropriate responsibility for one's own health, safety and welfare and the health and safety of pupils, visitors and work colleagues in accordance with the requirements of legislation and locally -adopted policies; including taking responsibility for raising concerns with an appropriate manager.

Not barred from working with children	X	

Department Information:

Waingels College is proud of our Mathematics Department. Our aim is to inspire children of all ability levels to enjoy Maths and reach their full potential. We have a very strong team of teachers and both Maths and Further Maths are popular subjects at A Level, with an increasing number of other students electing to do Core Maths to support the Maths in their A level's in other subjects. The Department has specialist teaching rooms and access to a variety of [online applications](#) for students. Each classroom has an interactive whiteboard and a wide range of specialist packages are utilised throughout the curriculum.

Curriculum Information

The year groups are set by attainment. The consistency of one teacher throughout a Key Stage is maintained where possible. At Key Stage 4, we take great care to ensure that students are entered for the tier of the Mathematics GCSE that will give each child the best outcome, with many achieving the highest grade. We follow the GCSE courses offered by Edexcel at GCSE, although some students are also entered for the Level 3 Free Standing Maths qualifications or Entry level qualifications as appropriate to their needs and abilities.

Mathematics is a popular option at Key Stage 5 and we generally have a good cohort for Further Mathematics course, attracting students from other schools to our sixth form. These KS5 courses are also offered by Edexcel.

What are we looking for?

We hope to employ a full time Mathematics Teacher who is confident to teach at across the Key Stages 3 and 4, with the opportunity to teach in Key Stage 5 if you are interested. We welcome ECT applicants, considering you to be an investment in the future. Our current staff base has a spread of age and experience, which is a deliberate choice. Every teacher leads classes of different abilities so that the successful candidate will quickly increase and deepen their range of experience.

We believe that success in Mathematics is essential in today's world. As a team, we seek to inspire our students to appreciate, not only the functional aspects of Mathematics, but also the intrinsic beauty of the subject and hope to develop their love of Maths.

The department is large, lively, extremely conscientious and enthusiastic. We are working hard to develop innovative and creative approaches to teaching and learning and look forward to the contributions a new member of staff will bring.

Making Your Application and the Selection Process

Making your application and the selection process

There are **FOUR** steps to making your application:

On the basis of the best information you have, **including a visit to our website on www.waingels.wokingham.sch.uk** decide whether you are the right person for the job and the job is right for you.

Download a copy of our application form and complete it (only completed official application forms will be consider).

Provide a supporting statement (no more than two pages of A4) that addresses the following:

- The reasons why you have applied for this post
- How your experience, professional and personal values make you the right person for the job

Any further information you would like to add to your application

Submit your application form and attachments via:

Email to Jenjnn@waingels.wokingham.sch.uk or

Post it to Jane Jennings, Waingels, Waingels Road, Woodley, Berkshire, RG5 4RF

Applications should be submitted as soon as possible. Applications will be reviewed as they are received and interviews arranged accordingly.

We welcome visits prior to application, with opportunities to talk to current staff

The school is committed to safeguarding, equal opportunities and to promoting the welfare of all staff and students
