

March 2025

Dear Potential Candidate,

Thank you for your interest in the post of Teacher of Maths at The Blue Coat School (<http://www.blue-coat.org>). From humble beginnings, we have become one of the biggest, and most successful schools in the country. The school has a national reputation for high-quality teaching and learning, pastoral care, consistently high examinations results, and outstanding progress. Our most recent Ofsted Inspection, in 2022, judged the school to be outstanding in every category.

Blue Coat is dedicated to serving young people, to enable them to become everything they can be and everything they are meant to be. We are a Church of England school that welcomes children of other Christian denominations, and of other faiths, and none. Our Anglican beliefs, values and worship are at the core of our life together in school.

Our aim is that all our pupils become good human beings – good friends, neighbours, citizens – people we are proud to know. Their social and emotional development, their self-respect and their ability to self-manage are just as important as their cognitive development. Pupils who are happy and secure in their school learn well and become successful people. High-quality pastoral care is at the core of the school.

We are looking to appoint an outstanding teacher to join our exceptional Maths Department. We want to appoint someone who is passionate and enthusiastic about maths and who also has a genuine love of their subject that they want to share with our young people. We want to appoint someone who will inspire our young people to see the value, joy and opportunities that being successful in maths and studying it in the future can bring.

Maths is a popular and valued subject at Blue Coat in Key Stage 3 and Key Stage 4 and at 6th Form it is our most oversubscribed subject.

The successful candidate will be joining a large, knowledgeable, experienced, and professional department and in this environment, they will be able to grow and develop as a professional as they are supported to teach across Key Stage 3, 4 & 5.

Our department of 14 teachers are all maths specialists which provides the platform for thoughtful, intelligent, inquisitive and professional dialogue about what makes exceptional teaching in mathematics.

Continuing our legacy of excellence.

We are a proud member of [Cranmer Education Trust](#).
The Blue Coat School, Egerton Street, Oldham, OL1 3SQ
Headteacher: Mr R Higgins. M.A.

The Blue Coat School

In addition to this, our maths department leads and supports on professional development for numerous schools throughout Greater Manchester, so the successful candidate will be immersed in a department where they are exposed to the very latest and the very best developments in the teaching of mathematics.

Our curriculum is underpinned by a consistent pedagogy that understands how pupils learn and a rigorous approach to building character and resilience. Our curriculum is also designed to inspire and enthuse our young people. Designated curriculum time (in addition to PPA) is also provided to the Maths Department once a fortnight to allow them to discuss and shape the curriculum and how best to deliver it. Our maths staff report that they get just as much fulfilment, nourishment and professional development from these conversations, as our young people do as they progress through the curriculum.

The successful candidate will teach maths across Key Stage 3 and 4 and there is also the opportunity to teach at Key Stage 5. We have enough strength and depth within our department to shape the teaching commitment of the successful candidate to their strengths. This may mean that they teach across all three Key Stages immediately or it may be that this is something that they aspire to in the future with guidance and support.

The prospect to work in such a successful and high achieving maths department as this one does not come around very often, so this a wonderful opportunity for interested applicants. This role is suited to teachers at all stages of their career – those who are just starting out or those who seek further professional development, opportunities and growth in an outstanding school and an exceptional Maths Department. The successful candidate will be joining a knowledgeable, experienced, tight-knit and professional department and will be able to grow and develop as a professional, as they are supported to teach across Key Stage 3, 4 and 5.

In brief we are looking for:

- A teacher committed to ambition, excellence and community who will work with staff across the school to drive the growth and development of The Blue Coat School as an outstanding provider for our young people.
- An inspiring informed educationalist with a clear understanding of what makes outstanding educational provision within maths.
- Someone who will do their utmost to ensure that all of our young people leave with a love and passion for maths that they will take with them into their adult lives.
- Someone who will inspire pupils and the staff they work with, and build strong relationships with our parents, carers and community partners.
- Someone who is seeking professional growth and development and who aspires to leadership roles in the future.

The Blue Coat School

This is an exciting and challenging role. It is a post for a dedicated, energetic and creative professional to work and flourish in an outstanding school and an outstanding science department. The demands will be varied, interesting and developmental. The person specification sets out the key experience, commitment and essential professional skills and qualities that we are looking for.

Full details about the post and application form are available from:
<https://careers.cranmereducationtrust.com/vacancies>

If you would like to discuss the position further, please contact Mrs C Ainsworth, PA to Headteacher (secretary@blue-coat.org) to arrange a call or visit to the school with a member of the Science Leadership team.

We look forward to hearing from you.

Yours sincerely,

Mr R Higgins
Headteacher
