November 2022 Our Ref: JS/KK

Teacher of Mathematics

Thank you so much for accessing details of the Teacher of Mathematics post. I am aware that there are many vacancies right now, and you will be wondering what makes it worth your while to apply to our school. Here are 3 good reasons:

1 An excellent environment where the vast majority of students want to learn.
2 An ambitious Leader of Maths with a hardworking and committed Team, and
3 A place where you can get on with teaching and learning and develop your professionalism to the highest levels.

All that we do is informed by our Core Values and welcome your application if you have a real vocation to teach Maths and you can work in sympathy with our values.

You will have the opportunity to teach A-level so it would be helpful if you could indicate in your letter of application your ability to teach A Level, and in which discipline(s): pure, mechanics and/or statistics. (We offer both Maths and Further Maths). Being able or willing to teach Computing would also be welcome though not, necessarily a pre-requisite for the position.

We are very proud that we achieved the coveted “Gold” Investors in People status, after demonstrating exceptional levels of people management and professional development. Our wholehearted commitment to all of our staff is that Bishop Stopford School will be a place of employment where their wellbeing is paramount.

If you have any queries about the advertised post, which are not answered in the information provided, or if you would like to arrange a pre-application/interview visit, please do not hesitate to contact Gerry Kirke, (Assistant Head) in the first instance: gkirke@bishopstopford.com.

Applications are welcomed by noon on Friday 9th December 2022. We very much look forward to hearing from you.

Yours sincerely

Jill Silverthorne
Headteacher
