'Be The Best You Can Be'

Mathematics at CCSC

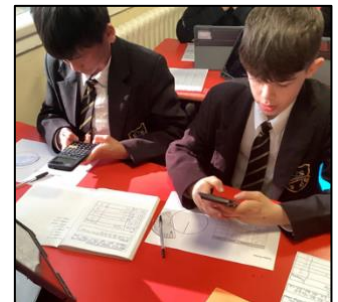

The Maths department at CCSC is a thriving, vibrant and happy department. We are one of the largest departments in the school, with six full time Maths specialists. Our team is made up of highly experienced and supportive members of staff whose aim is to ensure that the Maths department is at the heart of the school's ethos: supporting students to reach their full potential. A permanent full-time Maths position has arisen due to the school's increasing number of pupils, and we are looking for a like-minded individual to join our specialist team.

We pride ourselves on the delivery of outstanding lessons across the department. Since the implementation of the new 9-1 GCSE, we have adapted our pedagogy and are continually scrutinizing ways to support and prepare our students for the demands of the new GCSE exam. As a close-knit department, we work collaboratively to share the workload in creating highly effective, differentiated and engaging lessons across the five year groups, as we believe KS3 learning is fundamental to success at GCSE. We also work alongside nationally recognised Mathematics consultants to constantly improve and develop our teaching and learning.

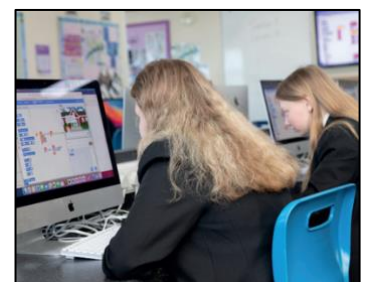

We study the EDEXCEL (1MA1) in Mathematics and have all the EDEXCEL online resources to support this. We also subscribe to many Maths resource websites and have around 70 years teaching experience in our department.

The Maths GCSE exam results have gone from strength-to-strength in recent years and this is testament to the strength and depth of the department, the support and training offered, as well as the ability to adapt well to changes.

The Maths teaching rooms are large and very well equipped. Each classroom has Apple TV and large screen TVs which link to your personal MacBook and iPad. In addition to this, all pupils enjoy the use of their own iPad, which can be incorporated into lesson planning in a variety of innovative ways.

We would love you to visit us prior to interview during the day so you can get you can get a feel for the school.
