MARLWOOD SCHOOL

Names not just numbers, outlook as well as outcomes.

About Marlwood School

This is a warm and friendly school with a family feel where each child is appreciated and cared for who they are, as well as what they achieve and go on to become.

Being a smaller than average secondary school, our size is definitely our strength. We pride ourselves on being a kind and caring student focussed school, where every member of staff makes it their business to get to know each child as soon as they enter the Marlwood family.

Our pastoral care is second to none. Our dedicated pastoral staff work very closely with students to understand their needs and provide the very best support and care. After all, happy children are more likely to be successful children!

Marlwood has recently received investment that is funding a facelift of the school to include new classrooms for art, design technology and science. The school also benefits from expansive grounds including tennis courts, astro pitch and a multi-purpose playing field. There is a real sense of fresh air at the school!

What's nearby...

The school is close to Thornbury High Street which has a number of local shops, cafes and takeaways to pubs and restaurants, if you need a caffeine fix or forgot to pack your lunch! You'll also find a Lidl, Iceland and a large Tesco just in case you wanted to do the big shop after work.

Parking

There is plenty of free parking is available at the school.
