Shaw Education Trust are a thriving mix of diverse and growing schools including Primary, Secondary and Special Schools all working together to improve the lives of young people in our communities. We are sponsored by Shaw Trust a charity organisation that focuses on transforming lives. Our schools span from Birmingham to Bury, meaning that we can support students from all walks of life, no matter their background or socioeconomic status. In doing this, we can help ensure all children are able to access a high standard of education, with all being treated equally.

In our secondary schools, we pride ourselves on our innovative approach to curriculum design, to ensure all our schools have breadth and ambition for all students, regardless of their starting points and barriers. Standard curriculum models don't always engage all students, so we constantly seek to

innovate and provide better opportunities to develop both knowledge and skills for life. We want our students to believe their curriculum is bold, exciting, purposeful, and ultimately leads to something meaningful for them. Some examples of our innovation include moving towards an extended school day, to provide a world class enrichment programme and more opportunities for essential skills like reading and cultural capital. We are also introducing vocational and technical pathways, which run through the normal school curriculum but attract support from leading employers and universities to develop work-readiness in our students, so that they can progress onto T Levels and apprenticeships.

We are currently at an exciting point in their evolution, with collaboration at the heart of our collective endeavour. We don't operate in silos: we value the power of the pack and strive to collaborate as a collective, ensuring no school or colleague is left behind. We are currently co-constructing an aligned curriculum across all EBacc curriculum subjects, to create a world class curriculum, rich in powerful knowledge and skills. This is driving up standards through the sharing of the very best practice, whilst allowing each school sufficient flexibility for autonomy to do what is right for their local context. A by-product of this approach has been the reduction in planning workload for colleagues, meaning they can spend more time on the things that matter and fostering strong relationships with pupils and delivery of the curriculum.

Our secondary schools are currently driving 'PedTech' across the sector: we believe teaching and technology should go hand-in-glove and are passionately committed towards providing a fully digitally enhanced curriculum. We are very close to achieving full 1:1 device delivery and are sprinting towards better use of iPads in lessons to enhance the experience and learning.
