About Skipton Girls' High School

Skipton Girls' High School is known for its culture of excellence; our students are articulate, confident and future focused. During their time with us, students are taught that success is created when you learn from mistakes, treat others with compassion and celebrate the power that diversity within communities brings. Skipton Girls' High School fosters a sense of belonging through our vertical tutoring system that joins together the whole school community to learn and support one another. Our curriculum is designed to challenge students academically and encourages deep thinking and creativity. Teachers are experts in their subjects and are committed to helping students flourish in their personal development. They nurture and inspire our students to think beyond the classroom and prepare them for the outside world. Above all, we are preparing our students for a world beyond Skipton Girls' High School, where they can stand tall and realise their full potential.

We have a fantastic team of staff and you will be fully supported by a Curriculum Leader and Learning Director, who shares a vision of effective teaching and learning founded on collaborative planning. We have an open-door culture and reflective ethos where we use curriculum pedagogy CPD to routinely assess our curriculum intent and its implementation.
