

Devonport High School For Boys

Teacher of MFL

KS3

All students take a language of their choice (French, German or Spanish) at KS3, in addition to Latin. Students are taught in tutor groups at KS3.

KS4

Many students continue with a language to KS4, starting from Year 9. At this point students are placed into their option choice groups, which are typically smaller (approx 15-25 students per group).

KS5

We offer three languages at A level, with student numbers growing in recent years. There are a number of trips and enrichment activities offered during our Curriculum Challenge Week and Curriculum Enrichment Week.

Students

Our students (including girls in the Sixth Form) are from a wide range of backgrounds in Plymouth, West Devon and South East Cornwall. Plymouth is a vibrant waterfront city, with a growing and thriving university, surrounded by a stunning and inspiring environment.

MFL Department

The department is staffed by four teachers, all of whom offer two or more languages including one to A Level. We consider ourselves to be a friendly, hardworking and supportive team. Our results are consistently outstanding, with high value-added across all three languages. Wherever the timetable allows, each member of the department teaches a selection of classes from across the full range of key stages. MFL is mostly taught in a suite of classrooms on one floor, with a designated workroom for MFL staff. All classrooms are equipped with a Promethean interactive whiteboard and all students have their own chromebook.

This post would suit a positive, enthusiastic and creative teacher keen to work in a collaborative and supportive working environment with high professional standards and a strong work ethic.
