

# Physical Education Learning Area

## LEARNING AREA

The Physical Education Learning Area is very well resourced. Accommodation includes a large Sports Hall, changing rooms, suite of classrooms, two external tarmacked surfaces for basketball, tennis, netball or handball and a very well maintained sports field with two pitches and numerous grid sections. Staff benefit from using interactive whiteboards in classrooms and use software to record, view and analyse performance.

PE is a popular subject and very well supported by students during the extended school day. A dedicated and conscientious team of staff ensure that students achieve their full potential whilst developing a passion for health-related fitness and sport. Examination results are excellent.

The Physical Education Department is strong at the Academy, valued and supported by parents, students and staff. The area enjoys a high profile both within the Academy, our feeder Primary schools and the regional community.

## STAFFING

Currently, eight full-time teachers work within the PE Department. A Head of PE manages the curriculum and day to day running of the department and works in collaboration with the Senior Deputy Head who oversees the PE area of experience. The PE staff work closely together and are a fantastic supportive team of professionals, one well worth joining.

## EXAMINATION RESULTS

In 2020, 100% of students successfully pass the BTEC Level 2 Sport course with 76% gaining a Merit or above. In Sixth Form, 100% of students successfully passed BTEC Sport, with 60% of grades at Distinction level.

## TEACHING AND LEARNING

Students are taught predominantly in single gender mixed ability groups. At Key Stage 4 students have the opportunity to study BTEC Sport. Students are encouraged from Key Stage 3 to develop a sound knowledge of the theoretical aspects of PE alongside the practical.

### Key Stage 3

Students are taught in mixed ability groups for most parts of the curriculum allowing a differentiated approach to our curriculum management. Students receive one three hour session of PE a week at Key Stage 3 which is a three year programme of study. The curriculum for PE is delivered through a series of modules through the year, six in total each with an assessment focus. Units of study are varied but range from games-based sports to health-related exercise within the National Curriculum for PE.

### Key Stage 4

All students continue studying PE at Key Stage 4 and receive a one and a half hour session a week within the two year programme of study. Students can continue to study practical activities as they have the opportunity to follow the Level 2 BTEC Tech Award in Sport.

### Key Stage 5

In the Sixth Form there are two pathways available progressing from Key Stage 4. The Edexcel BTEC Level 3 Extended Certificate, or Extended Diploma in Sport or AGCE Physical Education. Students studying the Diploma or AGCE PE course receive two three hour sessions a week, those studying the full Diploma receive six three hour sessions a week.

## ENRICHMENT

The PE Department offers a wide and varied programme of extra-curricular activities including girls' and boys' football and rugby, hockey, netball, basketball, badminton, climbing, gymnastics, rounders, cricket, athletics, tennis, table tennis, boxing and fitness. Teams enjoy success at a local, regional and national level. The extended school day is very well supported by students with team representation from Key Stage 3 to Sixth Form. Students have the opportunity to pursue the Duke of Edinburgh Award from Bronze to Gold level.
