Oathall Community College

School statement

“Oathall is committed to promoting respect, aspiration, achievement and enjoyment in a supportive environment.”

Our values

- Self respect
- Respect for others
- Aspiring to excellence
- Personal challenge and achievement
- Enjoyment of learning
- Being safe and healthy
- Contributing to our community
- Oathall – A college for everyone.

Oathall is a mixed comprehensive community college with over 1300 students located in the heart of Mid-Sussex. We are situated on the boundaries of the town of Haywards Heath and the village of Lindfield. We work closely with the other schools in our federation of secondary schools.

Learning is at the heart of all we do and the college has clearly stated teaching and learning expectations for all members of the college which are captured as the Oathall 8. Students achieve impressive results that continue to improve year on year. The most recent Ofsted inspection in September 2023 graded the school as continuing to be good and, although pleased with this, Oathall is not a complacent school and has an improvement plan sharply focused on producing outstanding outcomes in all areas. The comprehensive programme of continuing professional learning ensures that each member of the Oathall team can fulfil their entitlement to a bespoke package of training that is underpinned by the appraisal system.

The college has a full spectrum of specialist accommodation catering for all subjects. We are understandably proud of our refurbished Maths and Science Block. Subjects that require specialist learning spaces have access to them; be it the flood lit 3G artificial turf pitch in PE, Fitness Gym, the 3D printer in engineering, the Mac suite in music or the purpose built dance studio in performing arts.

Sets of Chromebooks are available for use in lessons so that students can take full advantage of our Google for Education provision. Classrooms across the college are well equipped and a rolling programme of building and maintenance development ensures that learning environments are kept up to date.

We are nationally and locally renowned for our outstanding school farm. We are delighted to have such a valuable and unusual educational facility. The farm enhances student learning and development in unique and creative ways and enables a range of courses and extra-curricular activities to take place that are distinctive to Oathall.

Physical Education

PE at Oathall is taught by a team of specialist teachers supported by a dedicated faculty assistant. Students routinely achieve very good outcomes; in 2023, 35% of our GCSE PE students achieved a grade 7+, 70% achieved at 5+ and 79% achieved at 4+. The faculty is very well resourced with thorough schemes of work in place for all years. Enquiry and independence is very much at the centre of learning within the faculty and our inclusive teaching and learning ethos is clearly embedded in lessons by all staff.

Leadership in the faculty is strong. Working alongside the Head of Faculty is a Deputy Head of Faculty, a Learning Manager and also an Enrichment Leader. Between them they take responsibility for the leadership of all aspects of the faculty's work and development. All leaders in the faculty are also members of one of our whole school leadership groups which meet regularly throughout the year to inform whole school development and improvement.

PE at Oathall is loved by our students, it is a popular choice in both curriculum options and in our extra-curricular activities. We offer GCSE PE and Cambridge National Sports Studies courses for KS4. Our extra-curricular provision run by the PE team provides opportunities for our students in Football, Basketball, Cricket, Hockey, Rugby, Gymnastics, Tennis, Athletics, Dance and Netball. We aim to offer a broad PE sports curriculum and we are keen to ensure all our learners find a passion for life-long physical sport or an activity that they can take forward into their life. We are looking for an enthusiastic, highly committed and dynamic teacher, who shares our values, to join our team and develop with us in our PE faculty.
