Information about the Faculty

SCIENCE FACULTY

Science is a large, inclusive faculty. We teach Science to all students in years 7-11 and our post-16 Science courses are extremely popular. Students in years 7, 8 and 9 have three lessons of Science a week and these lessons are taught by a highly professional and enthusiastic group of teachers. Year 10 has five lessons per week and Year 11 six lessons per week. A-Level and Level 3 BTEC Sciences and have 5 lessons per week in Years 12 and 13.

The Science course at Lord Grey Academy is designed to develop independent scientific learners. It is a structured course that develops thinking, practical and analytical skills, with the emphasis on experimental work wherever possible. We are developing our Schemes of Learning so that we have a continuous five year curriculum in Science.

In Year 10, students begin their Key Stage 4 studies, studying AQA Combined Science, with our most able students studying AQA Physics, Chemistry and Biology. A Level Sciences are popular and successful. We are proud that our A-Level Science students have successful Post-18 destinations including both Oxford and Cambridge University in recent years.

We are well supported by a team of dedicated and experienced technicians, and have a large and very well stocked prep room in addition to a dedicated staff base with reprographics facilities.

We are currently going through a period of rapid improvement within the Science faculty and the past 4 years have seen a consistent improvement in students' grades as well as their enthusiasm for the subject. With the changes currently taking place, now is the right time to join this forward thinking and dynamic team. With your help we can make the Science faculty the best in the school and inspire a new generation of Scientists.

If you wish to contact me for an informal discussion about this post I would be happy to speak with you.
