

Teacher of Physical Education (Maternity Cover)

The School has a very good reputation for sports both within Kirklees and the region. Many pupils successfully participate in sports teams and competitions and we also have individuals who excel at national level.

A wide range of P.E. and games activities are taught, with many pupils achieving a high standard of performance. As the School shares a large campus with a sixth form college (Huddersfield New College), there are facilities for most activities. There are two gymnasia, two indoor halls, an indoor heated swimming pool with a full-time instructor, 45 acres of playing fields, tennis/netball courts and cricket and athletics facilities. We also have a brand-new sports hall that has two classrooms. The School also shares an all-weather pitch with the college.

It is hoped to appoint a well qualified teacher who will be expected to teach a wide range of activities, as well as pursuing their own specialist interests. In addition, there may be a small amount of teaching time allocated to GCSE Physical Education.

It is important to have a full understanding of the developments taking place in Sport and Physical Education, as well as the implications of the National Curriculum.

We are looking for someone to encourage pupils to participate in sports and games, not only during the school day but in after-school activities.

Salendine Nook is a successful and over-subscribed 11-16 School which achieves high academic standards and has a reputation as a caring community. The School is a well-established specialist designated Technology College.

The School is on the western side of Huddersfield, one mile from the M62. The road system makes travel to Leeds, Bradford and the whole Yorkshire region very easy.
